

## Kynofos 18 Grandé

Kynofos 18 Grandé is a high quality, feed grade dicalcium phosphate dihydrate (DCP). DCP dihydrate is more bioavailable than the anhydrous form and the granulated physical properties ensures no dust and easy flow. Kynofos 18 Grandé has low levels of undesirable elements with no added molasses or trace minerals.

### Recommended use / application

Kynofos 18 Grandé is widely used as a versatile P-supplement for all types of feeds. The product is recommended for use in concentrate, compound feeds, mineral feeds and free-choice supplements for ruminants, monogastric animals and aquatic species.
