PHOSPHOROUS	(MIN)	7	g/kg

INGREDIENT STATEMENT

This animal feed contains: Grain and grain by-products, animal protein products, plant protein products, roughages and agro-industrial by-products, sugar cane by-products, oils and fats, amino acids, vitamins and minerals, antioxidants, binders, acidity regulators, flavouring agents, aroma enhancing agents, compounds of trace elements, digestibility enhancers and gut flora stabilizers. This product contains genetically modified ingredients.

CAUTION

This farm feed contains registered stock remedies. Feed strictly according to given instructions below.

FEEDING RECOMMENDATIONS

Feed as starter feed to dairy replacement heifers from birth to 3 – 4 weeks of age, as the sole solid feed. Thereafter, feed Mega Calf 18 as starter feed together with free access to additional roughage (preferably good quality long hay). Feed as a grower feed to dairy replacement heifers with free access to good quality roughage or pasture, from weaning to the age of 6 months, at a rate of 2 kg/calf/day, or adjust the quantity fed up or down to achieve specified weight and skeletal growth targets. From 6 months to breeding, the quantity fed can be increased to 4 kg/heifer/day, or adjust the quantity fed up or down to achieve specified weight and skeletal growth targets. Mega Calf 18 may also be fed ad libitum as a creep feed to suckling beef calves. Consult an animal nutrition advisor for more detailed/ customised advice.
