

CLASSIC BROILER FINISHER

Registration No: V 16419 Act 36 of 1947

Class: Broiler Finisher Feed

Form: Pellets

Description

The Classic Broiler range has been specifically designed for medium-sized producers who produce broilers between 6 and 8 weeks of age. The rations in this range, except the post-finisher, include a coccidiostat and a growth enhancer.

Benefits

The Classic feeding programme was formulated to optimise performance for medium-scale enterprises, considering environmental conditions and average-to-low stocking density.

Feeding Recommendations

Broilers should be fed the finisher diet from 29–32 days. The approximate feed consumption should be 900 g per bird. If birds are marketed at an older age (beyond 35 days), the amount of finisher fed should be adjusted to allow for a 5-day withdrawal feed to be used, such as a post-finisher.

Expected Intakes

The approximate feed consumption should be 900 g per bird.

Composition

Nutrient	Quantity	Unit	Min/Max
Protein	160	g/kg	Min
Fat	25	g/kg	Min
Fibre	70	g/kg	Max
Moisture	120	g/kg	Max
Calcium	6	g/kg	Min
Calcium	12	g/kg	Max
Phosphorus	5	g/kg	Min
Total lysine	9	g/kg	Min
