

net wrap
WESTFALIA
NOVATEX

**absolute
protection**

ME+ Exclusive Technology

► Medium-sized mesh

ME+ is a performing solution that allows to produce net wraps made of a reduced number of chains with reinforced and thicker threads.

► Higher Specific Strength

ME+ technology gives the threads an incredibly superior Specific Strength. This means: perfect protection of the forage over time.

► Better cling on the crops

ME+ Tech ensures optimal cling on the crops. Thanks to the wider angle of the weft, the ME+ net wraps hook up fast and easily.

► Mesh with fewer knots

Knots are the critical points of any thread. Novatex ME+ net wraps have half the number of knots with respect to standard net wraps.

► Eco Friendly

The proven increase in strength of Novatex ME+ nets allowed a significant reduction in the use of plastic while maintaining the highest standards available.

Westfalia NOVATEX

Westfalia Novatex® is a brand that focuses on: quality, performance, reliability.

The new coloration with wider dark-light green stripes distinguishes the right edge from the left and allows great visibility on all kinds of crops. The red warning stripe on the last 70 meters allows the operator to anticipate the roll change and avoid costly stops.

The exclusive properties of Westfalia Novatex guarantee perfect bales, full coverage and higher specific strength for highest protection even with frequent bale handling.

Don't put the value of your harvest at risk with second-rate round bale nets. Invest in Novatex quality!

Westfalia Novatex
An evergreen
success.
