Description ✓

Versatile and powerful

- Pumping of ponds, pumping out of basements eg in case of flooding, irrigation of beds
- Sucks off even with sand, cleaning agent or oil polluted water, eg sewage, sludge, ...
- Approximately 2.5 hours running time with one tank filling at 75% load

Robust, durable and reliable

- Functional in any weather
- Spiral housing and impeller made of cast iron, thus highest robustness and long life of the pump, even when used with sand-containing water
- Powerful and efficient 4-stroke engine, easy to start in all conditions
- Robust steel frame with vibration dampers
- Built-in membrane prevents the reflux of water

Easy to handle

- Quick and easy commissioning by direct generation of the negative pressure and connection of the hoses to the pump
- Easy maintenance

Media informations ▼

Robust, durable and reliable:
spiral and impeller made of cast iron

Powerful: up to 966 liters of dirty water per minute
from a depth of 7 meters

Illustration shows accessory suction hose

4-stroke engine with recoil starter: easy to start in
all conditions

Quickly ready for use: easy generation of the
negative pressure in the pump

Technical data ▼

Dimensions and weights			
Length (product) approx.	560 mm	Width/depth (product) approx.	430 mm
Height (product) approx.	465 mm	Net weight approx.	36 kg
Drive			
Motor output	4,5 kW	Fuel type	Gasoline
Fuel tank capacity	3.6 l	Oil tank capacity	0.6 l
Accoustic pressure at 7m (db(A))	77 dB(A)		
Pump			
Type	Waste water	Max. lift	26 m
Discharge capacity	966 l/min	Discharge port diameter	76.2 mm
Suction head	7 m	Max. grain size	27 mm
