Description ✓

- Suitable for pumping out pools, drainage shafts, water damage in house and cellar or for circulating water, among other things
- Integrated float switch regulates the pump depending on the water level with a selector switch for manual or automatic operation. Ideal for small sumps or barrels due to the smaller surface area required
- flat pumping down to a few millimetres is possible
- Dry-running protection integrated
- High-quality seals guarantee long service life
- Equipped with thermal protection
- High-quality and robust plastic housing
- Light and compact, very mobile
- Ergonomic handle design
