

WELCOME TO THE WORLD OF ESSENTIAL OILS

AN INTRODUCTION BY AYLIN KARADAYI

WHAT IS AN ESSENTIAL OIL

A BRIEF OVERVIEW

- Natural, highly concentrated compounds found in the roots, bark, seeds, flowers, or other areas of a plant.
- Give a plant its aroma
- Protect the plant from harsh environmental conditions and insects
- Play a role in plant pollination
- Tiny, organic molecules that are known to quickly transform from their liquid or solid state into a gas when they reach room temperature.
- Molecules that enter the human cell membrane within seconds

- Undergo strict testings:
- Like many other essential oil companies, doTERRA created their own quality control standard: Certified Pure Therapeutic Grade. This is an internal standard and doTERRA's promise that every single essential oil has been tested to this level.
- Most of the Essential Oils are sourced either through expression (cold) or distillation (steam).
- Essential oils permeate the cell membrane and immediately penetrate the human cells.
- An Essential oil is informed selfcare.

WHY DOTERRA?

dōTERRA essential oils are extremely potent, very high in quality and 100% natural. they are harvested and distilled from high quality stems, petals, nectars of plants from all over the world and represent the finest aromatic extracts.

for transparent accountability, dōTERRA created an internal standard called Certified Pure Therapeutic Grade® (CPTG)
