

Collection Bold Geometrics

The distinctive geometric designs, combined with the highest quality craftsmanship from the Himalayas, create a dynamic, magic "Gestalt" inside a room.

Natural colour shades allow a harmonious integration into authentic interiors.

Various pile heights pronounce the lines, shapes and colours to form an intense impression, enhanced by the depth of natural dyes and the smoothness of the yarns.

The rugs are made from silk and linen, dyed with colours from plants and minerals, blended by Tibetan artisans and traditional methods.
