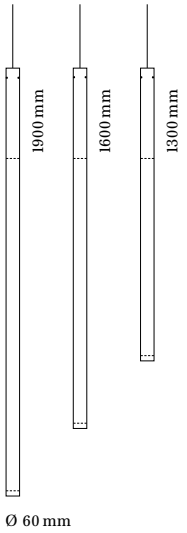
TUBE V

Design: Christian Deuber

A chandelier for modern people. Now also with a modern illuminant. The light is distributed evenly thanks to the opal acrylic glass tube. Only the elegant glass tube is visible as the LEDs and operating device are cleverly concealed.



Material:	Acrylic glass throughout, end parts steel white powder-coated, non-illuminated part above 400 mm below 25 mm
Illuminant:	1900 mm – 34,8 W / 3480 lm /LED 1600 mm – 27,6 W / 2760 lm /LED 1300 mm – 20,4 W / 2040 lm /LED
Attachment:	Put up on a wire, canopy
Styles:	Dimmable available CRI 90 2700 / 3000 / 4000 K

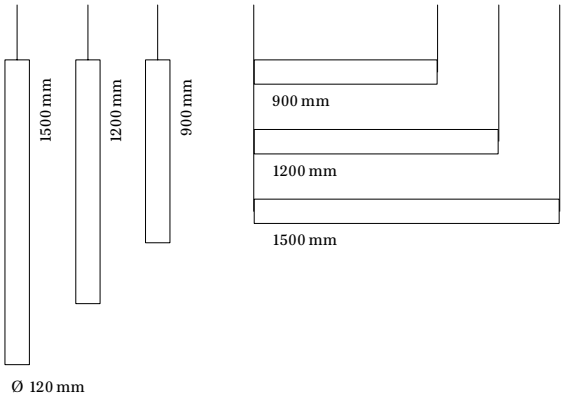
TUBE PENDEL V / H

Design: Christian Deuber

Captivating seamless brightness. Ideal anywhere you need generous amounts of light. The operating device is located invisibly between the fluorescent tubes and makes it possible for the light to glow in its glory in all directions. Horizontally, vertically or fixed at cross angles, a wide range of alignments is possible.



Material:	Acrylic glass, white powder-coated steel
Illuminant:	1500 mm – 69,6 W / 6960 lm /LED
	1200 mm – 55,2 W / 5520lm /LED
	900 mm – 40,8 W / 4080lm /LED
Attachment:	Wire cable, ceiling rose
Styles:	Available with dimmer, CRI 90, 2700 / 3000 / 4000 K

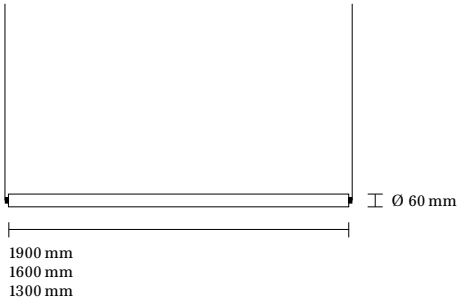
TUBE PENDEL H

Design: Christian Deuber

Due to absence of an extra case the tube pendant light is an extremely compact lamp. The operating electronics are built in at the end of an acrylic glass tube. Attractive lightgeometries are the result of a combination of multiple luminaries.



Material:	Acryl glass, white powder-coated steel
Illuminant:	1900 mm – 34,8 W / 3480 lm /LED
	1600 mm – 27,6 W / 2760 lm /LED
	1300 mm – 20,4 W / 2040 lm /LED
Attachment:	Wire ropes, canopy
Styles:	Dimmable available, CRI 90, 2700 / 3000 / 4000 K

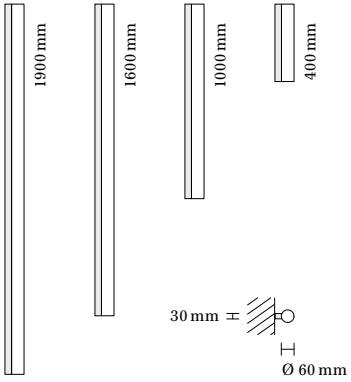
TUBE W

Design: Christian Deuber

**Simple, elegant and in various lengths.
The cylindrical acrylic luminaire body is the perfect complement to the Tube pendant luminaire.
With its simple elegance and glare-free light, it is particularly suitable for staircases and public areas.**



Material:	acryl glass, white powder-coated steel
Illuminant:	1900 mm – 34,8 W / 3480 lm /LED
	1600 mm – 27,6 W / 2760 lm /LED
	1300 mm – 20,4 W / 2040 lm /LED
Illuminant:	direct wall or ceiling mounting
Styles:	dimmable available, CRI 90, 2700 / 3000 / 4000 K

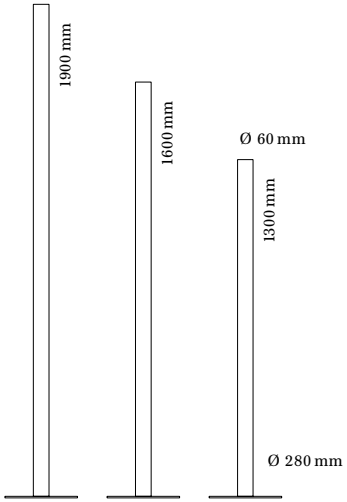
TUBE S

Design: Christian Deuber

A contemporary candle for bright hours. The classic tube is also available as a floor lamp. A subtle solution which never detracts from the room's appearance. Can be supplied in three lengths and, upon request, with a coloured cable and base.



Material:	Acrylic glass, powder-coated steel
Illuminant:	1900 mm – 34,8 W / 3480 lm /LED
	1600 mm – 27,6 W / 2760 lm /LED
	1300 mm – 20,4 W / 2040 lm /LED
Styles:	With dimmer and integrated dimmer button
	CRI 90, 2700 / 3000 / 4000 K
	Available in white and bronze
	Special colors on request

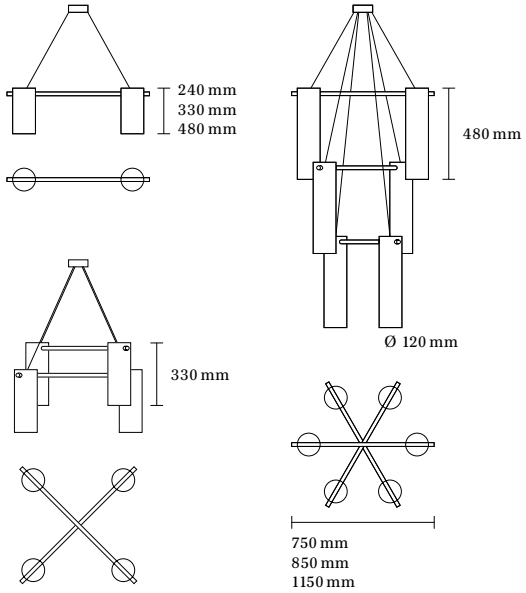
MO-BI-LE L

Design: Christian Deuber

I am uncomplicated and playful. The modular LED element can be used as a single lamp or combined into a lighting system. The concept of a yoke that links two light fixtures together allows for a wide range of different layouts. The lights can be offset and crossed so that lighting arrangements of any size can be created. The height of the light fixture and the length of the yoke are also variable and can be adapted according to the individual room layout and architecture.



Material:	wood, acrylic glass
Illuminant:	E 27 / LED
Styles:	raw or lacquered wood

LICHTPROJEKTE

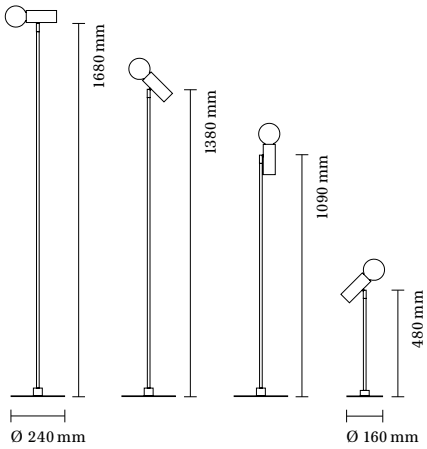
SPOTO

Design: Felice Dittli / Christian Deuber

A balancing act of lights. The aluminum cylinder floats lightly on the free rod and there is light at both ends. The directable spotlight and the ambient light of the globe lamp at the other end are balanced. The lamps can be operated separately.



Material:	Aluminum anodised in a champagne color or powder-coated in bronze Special colors on request
Illuminant:	E27 / LED, spot GU10
Styles:	floor / table lamp

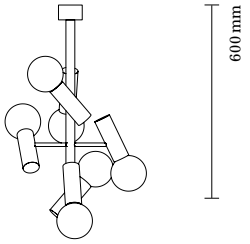
MULTI SPOTO

Design: Christian Deuber

**The chandelier for room and accent light.
A spot shines at one end of the light body and a sphere shines at the other end. The perfect mix for good light.
Accent and room light can be switched or dimmed separately.**



Material:	Aluminium powder-coated, color as desired
Illuminant:	E27 / LED, bulb opal, Spot GU10
Styles:	pendant light made to measure

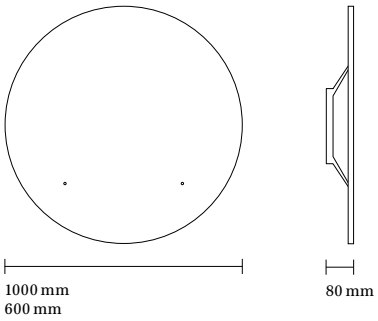
SUPERDISCO

Design: Christian Deuber

The ceiling- and walllight is uncompromisingly simple. It thereby exhales its self-evident generosity. The FC 55 Watt fluorescence glass tube also makes it a saving and effecient lightinstrument. Color printing on demand.



Material:	Acryl glass, white powder-coated steel
Illuminant:	LED
Attachment:	Rearconstruction installed straight onto the wall or the ceiling, assembly shell
Styles:	DALI dimmable, 28,3 W, 2700 / 3000 / 4000 K Color printing on demand

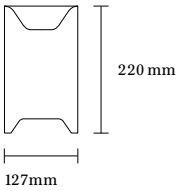
BROMO

Design: Christian Deuber

The setteld pole in space. Bromo illuminates rooms, without being the center of the attention. The understated ground luminaire floods light out of another perspective onto the wall and ceiling. Thereby the spatiality is filled with atmosphere.



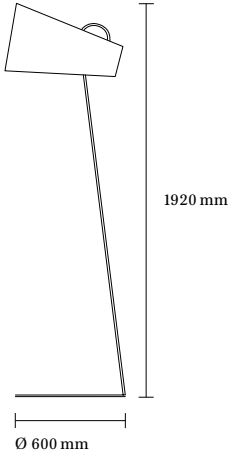
Material:	Powder-coated steel tube
Illuminant:	E 27 / LED
Styles:	Dimmable
	Available in white and bronze

LICHTPROJEKTE
Christian Deuber

CABANA

Design: Christian Deuber

The bulb can be swung back and forth so that diffrent lightatmospheres are enabled. The light structure of the aluminum and synthetic foil lampshade allows a filigreed linkage composition.



Material:	Steel powder-coated, lampshade of textile foil
Illuminant:	E 27 / LED
Styles:	Dimmable
	Available in white and bronze
	Special colors on request

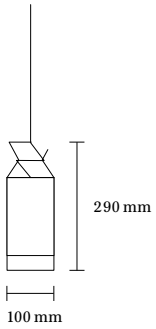
SPOOL S

Design: Christian Deuber

Spool hangs on a wire. A fine rack holds the holder and the shade. The roll up of the wire regulates the height of the minor lamp. Function and aesthetic with less material input marks spool.



Material:	Steel powder-coated, lampshade of polycarbonat
Illuminant:	E 14 / LED
Attachment:	Canopy or by use of a knot on a screwhook
Styles:	Rod system white, cable red, lamp shade white
	Rod system bronze, cable transparent, lamp shade white
