

Alta Ski Lifts Company Retirement Plan
Investment Comparative Chart As Of 09/30/2020

This document includes important information to help you compare the investment options under your retirement plan. If you want additional information about your investment options, you can go to the specific Internet website address shown in the table below or you can contact the plan sponsor, the financial advisor or Retirement Plan Consultants LLC.

This document has three parts: Investment Performance Information, Fee and Expense Information which includes any Investment trading restrictions, and a website link to access the Glossary of Investment-Related Terms.

Performance Information

The table below shows how plan investment alternatives have performed over time and allows you to compare them with an appropriate benchmark for the same time periods. Inception performance information is listed for funds without 1, 5 and 10 year returns.

Past performance does not guarantee how the investment option will perform in the future. Your investment in these options could lose money. Information about an option's principal risks is available on the website(s).

Fee and Expense Information

The table below shows fee and expense information for plan investment alternatives. Shareholder type fees are in addition to Total Annual Operating Expenses. Following the fees are a listing of any trading restrictions that the investments may have.

The cumulative effect of fees and expenses can substantially reduce the growth of your retirement savings. Visit the Department of Labor's website for an example showing the long term effect of fees and expenses at http://www.dol.gov/ebsa/publications/401k_employee.html. Fees and expenses are only one of many factors to consider when you decide to invest in an option. You may also want to think about whether an investment in a particular option, along with your other investments, will help you achieve your financial goals.
