

David Altreiter

the code savvy experience designer

Hi, my name is David!

I'm a Designer who can code. I would call myself an Experience Designer. But Job Titles change, my love for fresh designs and interfaces does not! I'm 27 years old. Living in the beautiful city of Linz.

Currently I am working on my Master Thesis in Web Art & Design (Webscience) at Kunstuni Linz. Before that I got my Bachelors Degree at FH Hagenberg in Media Technology & Design.

I'm currently looking for a Full Time Job and would be thankful for an offer!

More information about me including some work examples can be found on my online portfolio at altreiter.at
