Business and Home Office

Fine Furniture

Entertainment Cabinetry and Casework

Accuride®

Skid plate with index marks guides installation. Attached bracket flange provides the means to quickly mount partitions to conceal hardware.

Mounting method creates a pocket between the cabinet side and internal partition.

1321 Pro Pocket

Full Overlay Flipper Door Slide®

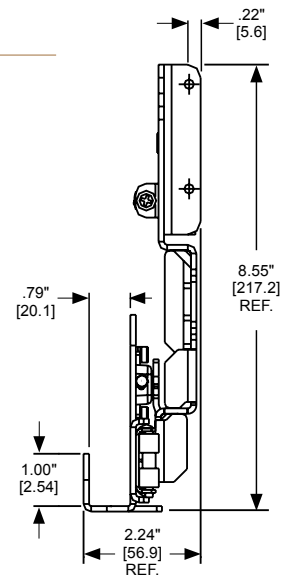

Accuride's Pro Pocket is a 3/4-inch overlay Flipper Door Slide that breaks convention with its unique mounting style and innovative features that virtually eliminate door scarring and damage. Attached brackets make internal partition mounting a quick and simple task.

Features and Benefits

- Accommodates doors up to 42-inches-tall x 24-inches-wide and up to 30 pounds.
- Unique mounting method creates a pocket between the cabinet side and internal partition. This facilitates full 3/4" overlay installation and minimizes door damage.
- Fits a variety of door styles; compatible with sculptured fronts, applied moldings, or raised panels. Slide rollers run across the back of doors, never touching door faces.
- Attached brackets enable quick installation of internal partitions. No need to dado for partitions; also simplifies the addition of horizontal shelves.
- Auto-open feature pushes cabinet doors open the last 1 1/4" of travel to ensure doors are full extended before rotation.
- Skid blocks with indexing marks guide installation, while protecting the door face, top, and bottom. Cover caps conceal skid blocks for an aesthetic finish.

Availability

- Even lengths 16–28 inches
- Black electroplate finish
