Long on Looks

The STUDfinder™ Installation System

Monogram was the first siding engineered to include an integral installation guide on each panel. From the first nail to the last, the patented STUDfinder™ system is designed to help ensure a precise installation for optimum siding performance.

Indicator letters help:

- Determine location of studs
- Ensure nails are positioned correctly
- Ensure correct number of nails are used.

Security and Performance

- Nailing to studs provides a strong and secure connection
- Protects against blow offs from under nailing
- Protects against buckling from over nailing
- Helps avoid nailing into hazardous items between studs like plumbing or wiring

A Comprehensive System of Value-Added Features

RigidForm™ 210

* Wind load rating per VSI wind speed calculation guidelines.

CertiLock™

The exclusive CertiLock™ locking system features self-aligning multiple bends that snap together with an audible "click" to ensure a secure fit and more consistent installation.

Heavy-Duty .046" Thickness

Monogram XL panels feature a true .046" thickness for outstanding strength and durability.
