The STUDfinder™ Installation System

The patented STUDfinder system is designed to make it easy for your contractor to install Wolverine American Legend siding accurately and securely. The indicator letters on the precisely spaced nail slots, engineered to align with standards of 16" and 24" on-center construction, help locate studs time after time. STUDfinder can also help avoid the dangers of nailing into something in the wall cavity, such as wiring, plumbing and mechanical systems.

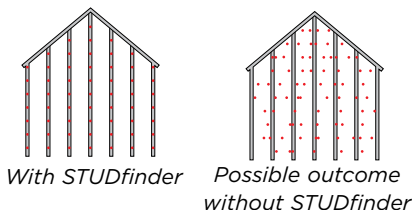

STUDfinder for Accuracy

- Nail slots align with 16" on-center standards for stud spacing
- Indicator letters help:
 - Determine location of studs
 - Ensure nails are positioned correctly
 - Ensure correct number of nails are used

STUDfinder for Security and Performance

- Nailing to studs provides a strong and secure connection
- Protects against blow offs from under-nailing
- Protects against buckling from over-nailing
- Helps avoid nailing into hazardous items between studs like plumbing or wiring

STUDfinder, because beauty and performance start with a quality installation

Wolverine American Legend coordinates with Vinyl Carpentry® and Restoration Millwork® trim so you can create and achieve the look you desire. Panels are available in a wide range of colors with a woodgrain or brushed finish. Wolverine American Legend is virtually maintenance-free and features a lifetime limited warranty. For great looks that last, choose Wolverine American Legend.
