Attach 4" or 5" duct or pipe to Duraflo
Bathroom Exhaust Vent or Roof Dryer Vent

Duraflo Continues to Design Better Exhaust Vents

We selected a group of roofers, builders and architects to ask the question - "What do you need in ventilation products?". The answer was simple and clear - "Make an attractive, quality exhaust vent for bathroom fans that won't chatter in the wind and, of course, make it weatherproof".

The new Duraflo exhaust vent comes in a full selection of colors with low profile styling and quiet, consistent performance. Our unique flapper prevents chattering while our deep grill design prevents even the worst rain gust from entering. Duraflo, developing products that meet your needs.
