Safety Warnings

WARNING

These symbols are found on all Mirka SOPs, as well as the product packaging for Mirka abrasives. Specific requirements for personal protective equipment (PPE) are presented in many different OSHA standards, published in 29 CFR.

Wear appropriate eye and face protection and ensure that the selected form of protection is appropriate to the work being performed and properly fits each worker exposed to the hazard.

Use gloves specifically designed for the hazards and tasks found in the workplace. The nature of the hazard and the operation involved will affect the selection of gloves.

If engineering and work practice controls do not lower employee exposure to workplace noise to acceptable levels, employees must wear appropriate hearing protection.

Selecting the right respirator requires an assessment of all the workplace operations, processes or environments that may create a respiratory hazard.

Read and follow all instructions contained in Technical Data Sheets and User Manuals.

The User is responsible for determining whether the Mirka product is fit for a particular purpose and suitable for the User's application. The User is also responsible for complying with any applicable safety and health-related regulations and taking any safety and health-related precautions when using Mirka products. This includes, but is not limited to: wearing safety glasses, face masks, gloves, and protective clothing, if necessary; following instructions and warning labels; and operating Mirka products safely including at safe operating speeds. By User's purchase or use of Mirka products, User acknowledges, represents, and warrants that User will: (a) comply with the foregoing; (b) assume all risks in connection with the use of Mirka products; and (c) read and understand the Mirka Warranty Policy.

GOOD

“Good” products are suitable for general-purpose applications and offer an economical alternative.

CARATFLEX

Grain	Silicon carbide
Bonding	Resin over resin, Progressive Bond®
Backing	P80–P120 B-paper, P150–P400 A-paper
Coating	Semi-open
Color	Gray
Attachment	Grip, PSA and Plain

- Designed for hand sanding of wood, sealers, paint and lacquers
- The latex impregnated paper backing is highly flexible and ideal for profile sanding
- An advanced stearate coating is used to resist loading
- Resin bonding improves grain adherence and product life
- Silicon carbide grain delivers an exceptionally sharp, smooth cut

BASECUT®

Grain	Aluminum oxide
Bonding	Resin over resin
Backing	P40-P80 D-paper, P100-P800 C-paper, P1000-P1500 B-paper
Coating	Semi-open
Color	Blue
Attachment	Grip, PSA and Plain

- Economical option
- Aggressive initial cut
- Resists clogging and loading

B E T T E R

“Better” products are designed to provide the ideal combination of product value and performance.

GOLD

Grain	Aluminum oxide
Bonding	Resin over resin, Progressive Bond®
Backing	P80–P150 D-weight latex paper, P180–P800 C-weight latex paper
Coating	Semi-open
Color	Gold
Attachment	Plain, PSA and Grip

- Designed for both finishing and heavy stock removal
- Aluminum oxide grain delivers a fast and long lasting cut
- High strength resin bonding provides superior grain support
- Special stearate coating is used to maximize resistance to clogging and loading
- Semi-open coat produces an even, consistent scratch pattern

COARSE CUT

Grain	Aluminum oxide
Bonding	Resin over resin, Progressive Bond®
Backing	Specially reinforced F-paper
Coating	Semi-open
Color	Maroon
Attachment	Grip and PSA

- Aggressive and fast cutting in coarse grades and is long lasting
- Specially reinforced paper exclusive to Mirka provides superior grain support
- Semi-open coat produces a consistent scratch pattern, while resisting loading

WATERPROOF

Grain	Aluminum oxide P80–P360, Silicon carbide P400–P3000
Bonding	Resin over resin
Backing	P80–P120 C-paper, P150–2500 B-paper
Coating	Closed
Color	Black
Attachment	Grip, PSA and Plain

- Waterproof paper offers full resin bonding on quality latex coated paper
- Ideal for nib sanding - to remove dirt and imperfections from paint surfaces
- Consistent and precise manufacturing process provides fine scratch pattern for improved finish

B E S T

"Best" products offer superior product quality and optimal performance that exceeds industry standards.

Q.SILVER®

Grain	Aluminum oxide
Bonding	Resin over resin
Backing	P80–P150 D-paper P180–P500 C-paper
Coating	Semi-open
Color	Blue
Attachment	Grip and PSA

- Excellent, uniform grain distribution provides an enhanced surface with a more consistent scratch pattern
- Semi-open coat design provides fast finishing
- Resin bonding provides superior grain support
- Q.Silver® has a special self-sacrificing stearate coating to reduce clogging and loading

Q.SILVER® ACE

Grain	Ceramic P80-P240 Ceramic coated P320-P500
Bonding	Resin over resin
Backing	B-paper
Coating	Semi-open
Color	Blue
Attachment	Grip

- Developed to achieve outstanding results on challenging surface conditioning and repair applications
- Well suited for metal applications
- Self-sacrificing stearate coating to reduce clogging and loading
- Semi-open coat design provides fast finishing

POLARSTAR®

Grain	Aluminum oxide P600 Silicon carbide P800–P1500
Bonding	Resin over resin
Backing	Polyester film
Coating	Semi-open
Color	Green / white
Attachment	Grip

- Outstanding performance on demanding applications such as hard tooling gelcoats and the latest scratch resistant automotive clearcoats
- Unique abrasive material resists clogging and delivers long lasting performance
- Excellent durability

PERFORMANCE BEST

BEST

UNIQUE

BEST

"Best" products offer superior product quality and optimal performance that exceeds industry standards.

MICROSTAR®

Grain	Aluminum oxide
Bonding	Low VOC resin system
Backing	Polyester film
Coating	Semi-open
Color	White
Attachment	Grip

- Ideal for removal of runs, dust nibs and excess orange peel from topcoat finishes before repainting or buffing
- Resists loading for longer disc life
- Ideal for sanding fresh or soft clearcoat
- Leaves an even scratch pattern, which buffs out quickly
- Film-backed discs have full resin bonded aluminum oxide grain

IRIDIUM

Grain	Ceramic / Aluminum oxide
Bonding	Low VOC resin system
Backing	Latex C-paper
Coating	Semi-open
Color	Gray
Attachment	Grip and PSA
Grit Range	40 - 600

- Fast sanding and consistent scratch pattern
- Consistent quality and non-stick coating repels dust
- Long lasting disc life means excellent performance
- Effective multi-hole pattern delivers outstanding performance without clogging
- Premium paper backing offers remarkable flexibility and grain adhesion

NOVASTAR™

Grain	Ceramic / Aluminum oxide
Bonding	Low VOC resin system
Backing	Polyester film
Coating	Semi-open
Color	Transparent
Attachment	Grip
Grit Range	80 - 180, P240 - P600

- Aggressive initial cut in coarse grits for heavy-duty applications
- Long lasting disc life means excellent performance
- Consistent scratch pattern provides the desired finish
- Effective multi-hole pattern delivers outstanding performance without clogging
- Premium film backing offers outstanding edgewear resistance, flexibility and grain adhesion

U N I Q U E

“Unique” products provide unequalled performance and deliver innovative solutions to workplace and environmental challenges.

AUTONET®

Grain	Aluminum oxide
Bonding	Resin over resin
Backing	Polyamide NET
Coating	Closed
Color	Gray
Attachment	Grip

- Excellent initial aggressivity
- Long life-span compared to paper-backed discs
- Eliminates clogging and pilling
- Developed specifically for the automotive repair industry
- Rolls have perforations every 2¾"
- Net abrasives are a key component for dust-free sanding

ABRANET®

Grain	Aluminum oxide
Bonding	Resin over resin
Backing	Polyamide NET
Coating	Closed
Color	Brown
Attachment	Grip

- High performance and long lifespan
- Removal of dust particles eliminates loading and pilling problems
- Woven mesh backing works with hook and loop attachment
- Net abrasives are a key component for dust-free sanding

ABRANET® ACE

Grain	Ceramic/Ceramic coated
Bonding	Resin over resin
Backing	Polyamide NET
Coating	Closed
Color	Maroon
Attachment	Grip

- Developed to achieve outstanding results on challenging surface conditioning and repair applications
- Well designed for metal applications
- Ceramic/ceramic coated grain
- Removal of dust particles eliminates loading and pilling problems
- Improved woven mesh backing offers increased strength / edge wear
- Net abrasives are a key component for dust-free sanding

"Unique" products provide unequalled performance and deliver innovative solutions to workplace and environmental challenges.

ABRANET® ACE HEAVY DUTY

Grain	Ceramic
Bonding	Resin over resin
Backing	Polyamide NET
Coating	Closed
Color	Brown
Attachment	Grip

- Ceramic grains allows for maximum cutting speed and consistent performance across a variety of surfaces and substrates
- Coarse grit range makes this ideal for aggressive stock removal
- Features exceptional resistance to edge wear and clogging
- Net abrasives are a key component for dust-free sanding

ABRALON®

Grain	Silicon carbide
Bonding	Special resin
Backing	Knitted fabric on foam
Coating	Special Abralon® method
Color	Gray
Attachment	Grip

- Combines benefits of abrasive cloth and non-woven products
- Constructed of fabric face, foam center and a grip backing
- Abrasive grains are bonded evenly to the fabric face
- Can be used for dry or wet sanding
- Open cell design holds large amounts of water or solvent for lubrication and cooling

OSP- OPTIMIZED SURFACE PREPARATION

Grain	Blended
Bonding	Resin
Backing	Polyamide NET
Coating	Closed
Color	Yellow
Attachment	Grip

- Complete system for auto body repair applications
- Easy for all operators to use
- Combines three industry SOPs in one process
- Improved consistency and less re-work
- Simple to standardize process across all facilities
- Less time required for the repair
- Improved shop environment
- Less technician exposure to dust
- Reduced labor cost of clean-up and maintenance
- Rolls are perforated every 2¾"

SCUFFS + SPONGES

MIRLON

Grain	Aluminum oxide (VF), Silicon carbide (UF)
Bonding	Resin
Backing	Non-Woven
Coating	Three dimensional
Color	Maroon (VF), Gray (UF)

- Three dimensional structure made with cut fiber strands coated with resin and abrasive
- Consistent coating of abrasive grains provide more uniform scratch pattern
- Very flexible, ideal for use on contoured surfaces

MIRLON TOTAL®

Grain	Aluminum oxide (VF), Silicon carbide (XF,UF, MF)
Bonding	Resin
Backing	Non-Woven
Coating	Three dimensional Total Coating
Color	Red (VF), Black (XF), Gray (UF), Gold (MF)

- Open design is thinner and more flexible than traditional non-woven pads
- Three dimensional structure made with cut fiber strands coated with resin and abrasive
- Consistent coating of aluminum oxide (VF 360) and silicon carbide (XF 800, UF 1500, MF 2500) abrasive grains provide uniform, dense scratch pattern
- Very flexible, ideal for use on contoured surfaces

BELTS + GRINDING

HIOLIT XO (51) SERIES AND (56) SERIES

Grain	Blue fired aluminum oxide
Bonding	Resin over resin
Backing	Polyester cloth: P36-P80 X-weight cotton cloth P100-P220
Coating	Semi-open
Color	Maroon
Joint	T/TS (Standard)

- The rigid cotton cloth is highly tear resistant
- Removes stock quickly, while producing a high-quality surface finish
- The durable aluminum oxide grain delivers an exceptionally long lasting cut

HIOLIT XO (57) SERIES

Grain	Blue fired aluminum oxide
Bonding	Resin over resin
Backing	Polyester cloth: P36-P80 X-weight cotton cloth P100-P220
Coating	Semi-open
Color	Maroon
Joint	T/TS (Standard)

- Designed for sanding operations where large amounts of material need to be removed
- Suitable for aggressive sanding
- Produces high-quality results on challenging materials

HIOLIT JF (55) SERIES

Grain	Aluminum oxide
Bonding	Resin over resin
Backing	Flexible JF-weight cotton cloth
Coating	Closed
Color	Maroon
Joint	T-Joint

- Flexible properties and high-quality sanding results make it ideal for metal and wood workshops
- Durability and excellent edge wear resistance make it ideal for sanding profiles and seams
- Ideal for aggressive sanding where flexibility is needed

BELTS + GRINDING

ABRANET® MAX (AB) SERIES

Grain	Aluminum oxide
Bonding	Resin over resin
Backing	NET
Coating	Closed
Color	Brown
Joint	T (Standard)

- Tough A/O grain gives a high cut rate on harder wood types and materials
- Extremely long lifetime compared to conventional abrasive belts
- The symmetric net structure enables an efficient cut and stock removal
- Resists clogging on resinous wood types or soft materials
- Keeps sanded surface cooler to avoid burning
- Lower pressure required when sanding due to its net structure

JEPUFLEX ANTISTATIC (44) SERIES

Grain	Aluminum oxide
Bonding	Resin over resin
Backing	F-paper / Antistatic
Coating	Closed
Color	Maroon
Joint	TS (Standard)

- Designed for sanding of hardwood such as oak and beechwood
- The closed coat gives the product high performance and long life
- Resistant to high temperatures and humidity
- Effective stock removal

SICA CLOSED (04) SERIES

Grain	Silicon carbide
Bonding	Resin over resin / Antistatic
Backing	Antistatic F-Paper
Coating	Closed
Color	Black
Joint	TS (Standard)

- The antistatic treatment reduces dust loading providing longer product life
- Fine scratch pattern produces a good final result after surface treatment
- Designed for sanding of hardwood and MDF
- Well suited to use after Jepuflex to achieve a better finish

PC45-2.8L	2.8 Liter
PC45-17L	17 Liters

POLARSHINE® 45

- Coarse polishing compound for production or restoration processes
- Suitable for hard surfaces and coatings; ideal for gel coat and high gloss lacquers
- Quickly and permanently removes scratches from P600
- Removes heavy oxidation and restores color and shine - Leaves a deep gloss finish - one step polishing for light colors!

PART NUMBER:	SIZE:
PC35-025L	250 ml
PC35-1L	1 Liter
PC35-5L	5 Liters
PC35-17L	17 Liters

POLARSHINE® 35

- An aggressive polishing compound for removal of P800 and finer sanding scratches, or for heavily oxidized surfaces.
- Can also be used for removal of fine orange peel
- Ideal for gelcoats, refinish coatings and composites
- Silicone-free

PART NUMBER:	SIZE:
PC20-1L	1 Liter

POLARSHINE® 20

- Polishing compound for removal of Golden Finish sanding steps 1 and 2
- Also suitable for removal and leveling of fine orange peel
- Perfect balance for high gloss and speed
- Silicone-free

PART NUMBER:	SIZE:
PC15-1L	1 Liter

POLARSHINE® 15

- A medium coarse polishing compound for removal of P1200 and finer sanding scratches or for oxidized surfaces and water mark removal on refinish coatings
- Also suitable for removal and leveling of fine orange peel
- Silicone-free

PART NUMBER:	SIZE:
PC12-1L	1 Liter

POLARSHINE® 12

- Designed for single step polishing in AOEM/Tier1 applications
- Removes scratches from P2500 or higher
- Perfect balance of final gloss and speed
- Water based and silicone-free

PART NUMBER:	SIZE:
PC10-1L	1 Liter
PC10-025L	0.25 Liter
PC10-5L	5 Liters

POLARSHINE® 10

- Medium duty compound can buff and polish by simply changing pads
- Removes sanding scratches without fillers
- Suitable for all paint systems including scratch resistant clear coats
- Silicone-free

PART NUMBER:	SIZE:
PC8-1L	1 Liter

POLARSHINE® 8

- Designed for single step polishing in AOEM/Tier1 applications
- Polarshine® 8 permanently removes sanding and swirl marks while producing a high gloss finish
- Designed to keep surface temperature low when polishing
- Suitable for use on all paint systems
- Silicone-free

PART NUMBER:	SIZE:
FC5-1L	1 Liter

POLARSHINE® VF5

- Polarshine® 5 leaves a high gloss finish without swirl marks
- Removes compound swirls and fine sanding marks
- A medium-fine polish for cleaning and refreshing surfaces
- Suitable for hologram removal
- Silicone-free

PART NUMBER:	SIZE:
PC3-1L	1 Liter

POLARSHINE® 3

- An ultra-fine polishing compound for protecting the high gloss finish on both original paint work and repainted surfaces
- Polishes and seals surfaces
- Contains carnauba wax
- Leaves a high gloss shine

GOLDEN FINISH SOP

SANDING

STEP 1

Golden Finish Sanding Step 1: for leveling surfaces OS-241-GF1 (6" Film product)

Sand with Golden Finish Step 1 disc (dry) using moderate speed. The clear should "powder" when sanding. If you can not produce dust, then it is not dry enough to sand. Sanding too early risks producing "pills" which will damage the surface.

Golden Finish Step 1 was designed to remove runs, dust nibs, excess orange peel or other surface defects in painted surfaces or gel coat prior to polishing.

STEP 2

Golden Finish Sanding Step 2: for conditioning of scratches OS-241-GF2 (6" Foam product)

Refine scratches uses Golden Finish Step 2 disc (wet) with a 50% overlap pattern.

Spray the disc and surface with clean water. If too much is used, it will be evident by water "slinging" from the disc, and the abrasive will float over the surface with reduced cutting action.

To prevent water from entering tool, do not use vacuum system when wet sanding.

POLISHING

STEP 1

Golden Finish Polishing Step 1: MPADLWY-6 (Yellow Lambswool Polishing Pad) + PC20-1L (Polarshine® 20)

Polish using PC20 with a yellow lambswool pad (MPADLWY-6). Use a slow speed (1,500 RPM) to prevent "burning" the finish. Wipe away any polishing residue using a clean microfiber cloth.

STEP 2

Golden Finish Polishing Step 2: MPADBF-6W (Black Foam Polishing Pad) + FC5-1L (Polarshine® 5)

Polish using FC5 with a black foam pad (MPADBF-6W). Use a speed of 1,500 RPM to prevent "burning" the finish. Wipe away any polishing residue using a clean microfiber cloth.

FINISH

Soft micro fiber cloth M-9915G

Wipe away any polishing residue using a clean microfiber cloth.

TOOLS + ACCESSORIES

DE-1230-PC FEATURES:

Push & Clean Filter Cleaning

Easy way to clean the filter for longer life time and better performance.

Easily Accessible Flat Filter

Filter can easily be reached through an opening in the back.

Hose Storage

The hose is always ready to use.

HEPA Filter

The HEPA (High Efficiency Particulate Air) filter improves filtration.

High Volume Container

30 liters for applications where a lot of material is extracted.

Large Wheels

Easy maneuverability on uneven surfaces.

High Performance Motor & Turbine

1200 W motor and 1-stage turbine creates 250 mbar pressure and 4500 l/min airflow.

AutoStart Function

Dust Extractor runs only when the power tool is running.

HEPA Certified to meet ERA RRP Guidelines*

ALL HOSES AND ADAPTERS WORK WITH THE MIRKA DE-1230-PC DUST EXTRACTOR. ADAPTERS 1–6 CAN BE ORDERED AS SPARE PARTS.

ADAPTER	DESCRIPTION
 <p>MV-412HA-ADAP</p>	<p>1 Hose 1½" x 15' + Connector. This conductive adapter enables a quick change in-between Mirka power tools. Fix the adapter on each tool and connect/disconnect to/from any Mirka hose assembly with a Mirka branded adapter, both pneumatic: MV-412HA, MV-HA33, and electric: MVHA-5 and MVHA-10.</p>
 <p>VHA-1.25</p>	<p>2a Mirka Connector for Air + Electric Hoses. Comes with hoses MVHA-5, MVHA-10, MV-412HA, MV-HA33.</p>
 <p>8992515911</p>	<p>2b Connector for Air + Electric Hoses with threads. This adapter is close to the dust extractor, where the pneumatic hose/electrical cable comes out. Comes with hoses MVHA-5, MVHA-10, MV-412HA, MV-HA33.</p>
 <p>8992515611</p>	<p>3 Hose adapter Ø 32 mm / 54 mm for Mirka® Dust Extractors. Comes with hoses MVHA-5, MVHA-10, MV-412HA, MV-HA33. This adapter goes from the hose into the dust extractor.</p>
 <p>8992515411</p>	<p>4 Soft Connector Ø 25,4 mm. Delivered together with hose MIN6519411. For connecting the hose to the Mirka Deco Sander.</p>
 <p>MV-HC32</p>	<p>5 Hose Connector Ø 32 / 32 mm. Delivered together with extension hose MIN6519711. Enables connection with MIN6519411.</p>
 <p>8391111211</p>	<p>6 Quick -disconnect air inlet for Hand Blocks. Comes with hose 91100-A</p>

BACKUP PADS + SANDING BLOCKS

MIRKA® BACK UP PADS

- Precision molded pads with riveted centers for strength, were made to function in a speed of 12,000 rev/min.
- Each pad is balanced to eliminate vibration and provide superior finishing.
- Available in different densities for flat or contoured surfaces.
- Multi-hole pads offer excellent vacuum performance with our NET products.

MIRKA® HAND SANDING BLOCKS

- Made of lightweight, precision-molded material.
- Vacuum capable blocks are designed to complement the NET products.
- Available in vacuum and non-vac styles.
- Stocked in various dimensions and attachment systems.

- molten_metal_works_usa** Sanding down a Redwood table top to apply a more durable finish. My @mirka_usa sander is making quick work removing the finish.
- mattwillisinteriors** Room number two of my week is well underway, I'm following the work of a good carpenter which makes my life much easier and less stressful! My @mirkauk Deos is in full swing making the new wood smooooooooth
- autoboje.rs** Mirka is a world leader in surface finishing technology
- james.candec** Why buy a dust extraction sander? Why not !! We all know what easifill is like for dust not a single spec escapes saving my lung and the customers house from being covered in dust!! And the time is has saved me cleaning up and rubbing down manually means its paid for itself in a few jobs !
- toolsbydesign** The Mirka DEOS is fantastic for over head work. The low weight, smooth brushless motor, and dust collection with the Mirka Abranet ACE paper make this a dream to use.

WARRANTY POLICY

WARRANTY

Mirka USA Inc. ("Mirka") warrants that the following Mirka products will be free from defects in material or workmanship from the date of purchase for the time period indicated:

- a. Electric tools (DEROS, DEOS except dust extractors): 2+1 years *
- b. All other tools (MR, PROS, Two- Handed Sander, Pneumatic, and Dust Extractor): 2+1 years *
- c. Tools used in a continuous industrial environment are excluded from the 2+1 warranty, and will be covered for 1 year only.

* By registering an electric tool within 30 days of purchase at http://www.mirka.com/warranty_registration/.

Mirka will warrant the product for an additional one year.

TERMS AND CONDITIONS

The purchase of any Mirka product will constitute and be deemed to be acceptance of and agreement to the Mirka Warranty Policy ("Policy") by the purchaser and/or user (collectively "User") of any Mirka product. The Policy shall not apply to:

- Normal wear and tear; or
- Product failure or damages caused by:
 - Subsequent modification of the Mirka product;
 - Repairs attempted or made on the Mirka product other than by Mirka;
 - Misuse, abuse or neglect;
- Careless or unsafe handling;
- Inadequate or improper maintenance;
- Failure to follow any applicable instructions for the Mirka product; or
- Anything other than defects in material or workmanship.

Mirka's sole obligation under this Policy shall be, at Mirka's option, to: (1) repair or replace any Mirka product that is defective in material or workmanship; or (2) refund the purchase price of the Mirka product that is defective in material or workmanship.

The User is responsible for determining whether the Mirka product is fit for a particular purpose and suitable for the User's application. The User is also responsible for complying with any applicable safety and health-related regulations and taking any safety and health-related precautions when using Mirka products. This includes, but is not limited to: wearing safety glasses, face masks, gloves, and protective clothing, if necessary; following instructions and warning labels; and operating Mirka products safely including at safe operating speeds. By User's purchase or use of Mirka products, User acknowledges, represents, and warrants that User will: (a) comply with the foregoing; and (b) assume all risks in connection with the use of Mirka products.

No agent, representative, employee, distributor or dealer of Mirka is authorized to modify this Policy or to issue any warranty regarding any Mirka products.

Any civil action against Mirka relating to or arising out of the sale of Mirka products shall be commenced within one (1) year of the date the cause of action accrued or otherwise the cause of action shall be barred.

DISCLAIMER

Except for the provisions of this "WARRANTY," Mirka expressly disclaims all guarantees and/or warranties, expressed or implied, including the warranties of merchantability and fitness for a particular purpose and any implied warranty arising out of a course of dealing, custom or usage of trade.

LIMITATION ON LIABILITY

Mirka's liability for any loss or damage arising out of or resulting from any breach or default by Mirka in connection with the sale of Mirka products hereunder shall not exceed the purchase price thereof, regardless of whether such liability arises in contract, tort (including, without limitation, strict liability) or otherwise.

In no event shall Mirka be liable for loss or damage arising from the Mirka product, whether direct, indirect, special, incidental, or consequential damages of any kind regardless of the legal theory asserted, including, without limitation, warranty, contract, negligence or strict liability.

SUBMITTING A WARRANTY CLAIM

To submit a warranty repair claim, Users must contact their Mirka dealer or Mirka Customer Support. Tools returned for warranty repair must be accompanied by a valid purchase receipt or invoice.
