Evolving Our Premcore[®] Innovation Story

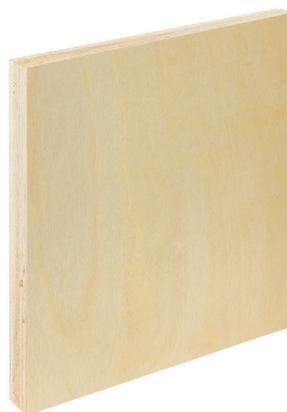

After several generations of refinement, PREMCORE®Plus delivers a superior quality at competitive prices. Evolving on our Premcore® line, Premcore®Plus has gone through several generations of refinement to where it is today with better strength and a lighter weight. Premcore®Plus is ideal for cabinet and furniture component manufacturers looking for an excellent core and lighter weight.

Features

Benefits

Tight thickness tolerance at +/- 0.3mm
Ease of use on CNC machines

Calibrated two-step panel construction
Stable core to eliminate warping

Minimal core voids and overlaps
Consistent look along the edges

Unfinished and Prefinished
Matching panels for multiple applications

Inspected by Canusa Quality Control Team
Consistent quality
