

# RAUVISIO ingrain™

## Frequently asked questions

### **What is the brand of wood core?**

Arauco Ultra particle board from Grayling, MI plant

### **Is the particle board core resin free?**

No, it uses amino resins of melamine-urea formaldehyde

### **Is the particle board core NAF or ULEF?**

The standard particle board core is neither, but ULEF is available as special order at a higher price

### **How does RAUVISIO ingrain differ from reconstituted veneer?**

RAUVISIO ingrain is a decorative paper made from cellulose fibers derived from wood pulp and bonded to a substrate

Reconstituted veneer is actual wood veneer, made from plentiful hardwood species, that is cut, processed, bonded and stained to create a new artificial log and recut to simulate the look of exotic wood species

### **What is the sample program?**

- Sample folders with 5 x 10 in board
- 5 x 10 in boards in all colors
- 12 x 15 in boards in all colors

### **What is the finish name and what is it?**

PUR lacquer UV cured, applied with a special print wheel (process is proprietary)

### **What is the abrasion resistance?**

- 30 revolutions per CEN/TS 16209 (Taber test)
- Lower than HPL and TFL, similar to wood veneers

### **What is the UV resistance?**

It's tested to the same level as our other products:

- Blue Scale 6, Grey Scale 5

### **How do you repair scratches and edge nicks?**

Using a quick drying oil based staining pen, like:

- Scratch Fix (used by manufacturer)
- Rejuvenate
- Rustoleum Wood Repair Markers
- Minwax Wood Finish Stain Markers

### **What chemicals can be used for cleaning by the homeowner?**

- Soapy water
- Clorox Disinfecting Wipes
- 409 Multi-surface Cleaner

### **What chemicals can be used for cleaning by the cabinet shop?**

- ZEP Heavy-duty Citrus Cleaner
