

Particleboard

DESIGNED FOR TODAY'S MOST DEMANDING APPLICATIONS

Made from 100% recycled or recovered wood fiber, SkyBlend® and UltraBlend® from Roseburg offer premium, mat-formed, multilayer particleboard ready for today's most challenging woodworking applications. Featuring a smooth surface and tight, uniform core for excellent dimensional stability and unmatched machining capability, SkyBlend and UltraBlend deliver precise physical properties for consistent, controlled performance.

MAKING LIVES BETTER FROM THE GROUND UP.

FOOTPRINT

- Missoula, Montana
- Simsboro, Louisiana
- Taylorsville, Mississippi

CUSTOMER SUPPORT

Providing superior customer service is a priority at Roseburg – something new customers quickly discover and long-time ones greatly appreciate.

ABOUT ROSEBURG

Since 1936, Roseburg has been a major manufacturer and supplier of high-quality wood products. From humble beginnings in Oregon, we've grown through smart management of natural resources, state-of-the-art manufacturing facilities, talented and experienced team members, and a reputation for reliably supplying quality wood products to a wide variety of clients.

Unique in today's wood products industry with a vertically integrated structure driven by over 600,000 acres of our own sustainably managed forestlands in Oregon, Virginia, and North Carolina, Roseburg products are shipped and used throughout North America and the Pacific Rim.

SUSTAINABLE ATTRIBUTES

Roseburg particleboard panels can help builders achieve sustainability and green building objectives.
