Industrial Wood Fiber Boards can be used for Tackboards, wall coverings, industrial packaging, coating or lamination.

Storage and Application Precautions*

The following precautions are strongly recommended to prevent warpage of the product:

- Keep boards banded
- Once unbanded, keep a cover sheet on the top of the boards
- In applications, each board must be framed to prevent warping

**These precautions may not address all concerns associated with storage and use. It is the responsibility of the user of this product to establish appropriate storage and use practices.*
