

Vantage™

Versatile. Durable. Dependable.

Decking gets an upgrade with an uncapped composite decking board that works better than pressure-treated lumber. When it comes to creating custom artisan decks, there's no material that cuts, rips or bends better while still maintaining its integrity. That's because our Solid Core runs through the entire Vantage deck board to ensure protection without a cap. As a result, there's no need for painting, staining and yearly repairs with this beautiful decking option that's resistant to moisture, rot, and warping.

- 1" x 6" deck boards
