## ABOUT AMERHART

For more than 80 years, Amerhart has worked to build a business designed around the needs of building materials dealers. In that time, Amerhart has grown geographically. We have become a Specialty Building Products (SBP) brand and added distribution brands like **Alexandria Moulding and USL Direct**. This has expanded our product and service offerings, and aligns with our philosophy to meet a standard of trust and responsiveness that is unmatched in the industry. Today the SBP brand family serves over 15,000 customer locations in the United States and Canada with more than 50 categories of unique specialty building products.

Amerhart is a "values" based organization, governed by a culture of respect, honoring people first, and operating according to a true moral compass aimed at doing what is right. Amerhart diligently extends that circle to each of our employees, our customers, our suppliers and everyone that we encounter in the business.

## COMMITMENT TO MILLWORK

Amerhart can proudly say that we are happy to expand into the millwork segment as we continue to stay relevant and deliver legendary customer service. The combination of U.S. Lumber, Alexandria Moulding and USL Direct makes Amerhart part of one of the largest distributors of Moulding and Millwork in North America with a total millwork inventory that exceeds any competitor. With 4 Alexandria Moulding manufacturing locations we have the assurance of continued supply and the opportunity to deliver made to order product solutions. With USL Direct, we can also offer direct and reload options for high volume buyers of commodities such as manufacturers, door shops, and consolidated dealers. Amerhart is positioned to effectively address every need in our market for moulding products.

## OUR PEOPLE

Our buyers, sellers and Millwork Managers are dedicated, career, millwork professionals. Buyers are working to consolidate our purchases and coordinate them with the largest manufacturers in the world to bring to market the highest quality products at the most competitive pricing. Millwork Salespeople and Millwork Managers work locally in each market to keep a clear focus on the individual product and service needs of customers in each region. With over 5000 different items in stock, our branch inventories are finely tuned with the right mix of profiles, substrates and finishes to meet the unique architectural and traditional applications for the area. These dedicated millwork professionals are the best and most local resource for technical and market information.

Amerhart is working tirelessly to be an essential part of your business.
