The Choose Home Collection is designed to beautify your home today and allow for flexibility in the future.

The Choose Home Collection includes all of the design elements necessary to create bathing fixtures that are both beautiful and adaptable for future needs. For example, all models are reinforced in two key areas for easy on-site addition of support bars or fold-out seats.

Personal comfort and security are elemental in the Choose Home Collection. Showers with low step-in thresholds; large, comfortable, molded seats that are the perfect 21 inch chair height; textured floors and a very functional leg ledge in the perfect position for personal grooming. Soaking tubs with an integral transfer seat that is

beautiful and for many people eases the challenge of entry and exit.

The Choose Home Collection offers two easy to clean and easy to maintain finishes. Select from three colors in Patent Pending AcrylX™ or seamless, solid surface CenturyStone™ in three granite colors.

The entire collection features smooth contemporary designs or the beautiful, groutless, six inch tile designs made popular in our Millennia Collection.

These are all examples of design concepts and attention to details that make the Choose Home Collection perfect to make a new home or a renovation beautiful and flexible. Enjoy it now and really appreciate it for years to come.
