# SIMULATED TILE BATHWARE

premium residential bathware

Design and functionality merge to create easy to clean, beautiful bathware. The Aquarius Simulated Tile line offers the beauty of tile without the hassle of grout. The AcrylX™ finish ensures you a lustrous white to better match your other bathroom fixtures, while the hard surface finish reduces the chances for scratches. The less porous surface means less time cleaning and more time enjoying your bathtub.

SIMULATED TILE BATHWARE

**SUPERIOR FINISH- AcrylX™** AcrylX has a visibly true white, deep lustrous finish that can only be achieved with an acrylic surface. Whether in a warehouse or a new house, an AcrylX product will resist scratching, cracking and chipping and will maintain a "factory-new" finish over its lifetime. AcrylX's™ UV properties resist fading, low porosity helps maintain luster and make cleaning easier, and other natural properties make it less susceptible to chemicals. AcrylX™ bathware- stronger, brighter white- is covered by an unprecedented **lifetime, limited warranty**.

**CenturyStone™ SOLID SURFACE** is patented, solid surface technology that creates a strong, long lasting, seamless, non-porous, solid surface product. Perfect for healthcare, hospitality and up-scale residential applications. Aquarius solid surface bathware is covered by a **lifetime, limited warranty**.
