P3

PRAXIS partner protection

the only
**PRODUCT
PROTECTION
PROGRAM**
in the industry

PARTNERSHIP & PROTECTION

Praxis Partner Protection, P3, is the assurance you need on a job site full of hazards. Assurance that at the end of the day P3 will have protected your tub from the typical job site issues that leave most others in need of repair and cleaning. The factory applied coating creates a barrier that protects the factory finish from dirt, dust, and debris - a coating that protects all of the way through the end of the installation process.

P3 gives you peace of mind that your customers will have a factory clean finish and that any typical job site damage that may occur is taken care of, at no charge to you. Praxis Partner Protection, P3, saves you time, saves you money, and saves you from some of the worries that the job site brings.

That's the power of P3.

finishes

SOAKING & JETTED BATH TUBS

SUPERIOR FINISH- AcrylX™ AcrylX has a visibly true white, deep lustrous finish that can only be achieved with an acrylic surface. Whether in a warehouse or a new house, an AcrylX product will resist scratching, cracking and chipping and will maintain a "factory-new" finish over its lifetime. AcrylX's™ UV properties resist fading, low porosity helps maintain luster and make cleaning easier, and other natural properties make it less susceptible to chemicals. AcrylX™ bathware- stronger, brighter white- is covered by an unprecedented **lifetime, limited warranty.**

CenturyStone™ SOLID SURFACE is patented, solid surface technology that creates a strong, long lasting, seamless, non-porous, solid surface product. Perfect for healthcare, hospitality and up-scale residential applications. Aquarius solid surface bathware is covered by a **ten year, limited warranty.**
