- Freestanding bathtub leg standardization

Retail

- Freestanding bathtub leg standardization

Multi-Brand

- Discontinuation of acrylic 5" bases
- Discontinuation of Bone (004) and Biscuit (007) colors on MAAX acrylic 3" bases and walls
- Product improvement – B3 & Zone bases

Professional

Effective immediately, the leveling on our 2-piece freestanding bathtubs have been standardized. They will now be using the MAAX innovative leveling legs for easy installation.

Key Benefits:

- Easier installation and levelling than previous bolt leveling legs
- Each leg is adjustable and lock securely to keep the tub in place

Multi-brand

MAAX is proud to announce that we've made the following design change to improve the quality and performance of the B3 & Zone shower bases.

It was noticed that these two square drain bases had accumulation of water occurring underneath the square grid, which was not draining properly. We have adjusted the product design as depicted in the images below so that water can drain more effectively.
