Aggregate Solid Surface Carrara

Innovative Hospitality Solutions

Why Solid Surface for Hospitality?

Solid Surface is a Heat Compression Molded Material. It is a **non-porous** surface which naturally **resists bacteria** and is highly resistant to scratching, staining, heat, mold, mildew, and chemicals.

The **color and texture are consistent throughout** with no surface coating to chip or crack. Solid Surface also has the best impact resistance testing in the cast polymer industry, up to five times stronger!

Solid Surface is a Heat Compression Molded Material.

Featuring an **Anti-Microbial surface** that is non-porous. Our solid surface technology naturally **resists bacteria**, resulting in a surface that is easier to **keep clean and sanitary**.

Impervious to chemicals even after long exposure to corrosive solvents.

Heat resistant up to 450° - the highest in the industry.

Lighter and a more durable material allowing for easy installation, easy to cut or trim to size with less breakage

Covered by an industry leading 15 Year Warranty
