## Concrete Collection Solid Surface

Innovative Hospitality Solutions

### Why Solid Surface for Hospitality?

Solid Surface is a Heat Compression Molded Material. It is a **non-porous** surface which naturally **resist bacteria** and is highly resistant to scratching, staining, heat, mold, mildew, and chemicals.

The **color and texture are consistent throughout** with no surface coating to chip or crack. Solid Surface also has the best impact resistance testing in the cast polymer industry, up to five times stronger!

Concrete Collection in Ash Gray (.203)

### Solid Surface is a Heat Compression Molded Material.

Featuring an **Anti-Microbial surface** that is non-porous. Our solid surface technology naturally **resists bacteria**, resulting in a surface that is easier to **keep clean and sanitary**.

Impervious to chemicals even after long exposure to corrosive solvents.

Heat resistant up to 450° - the highest in the industry.

Lighter and a more durable material allowing for easy installation, easy to cut or trim to size with less breakage

Covered by an industry leading 15 Year Warranty
