

GlassShield® is a transparent film that bonds directly onto hospitality shower doors, enhancing safety. It effectively retains glass pieces together, significantly reducing the risk of injury in the rare event of glass breakage.

## GlassShield® Technology

GlassShield

### How is GlassShield® Technology Applied?

- GlassShield® is applied and quality inspected during factory production.
- The film can be applied to either the inside or outside of the shower door.

### How Durable is GlassShield®?

- GlassShield® has been rigorously tested for long-term use against chemicals and soft abrasives and adheres to industry-standard requirements.

### How do I clean GlassShield®?

- Clean GlassShield® with a soft cloth and water, or use a squeegee.
- You can use standard non-abrasive cleaning products for shower glass.
- For optimal results, use a damp cloth with a vinegar or mild soap solution. Avoid cleaning products with abrasive particles and do not use abrasive tools.

### Key Benefits

**High Transparency:** Maintains natural color perception without altering visibility.

**Enhanced Security:** Adds an extra layer of protection for both guests and staff, enhancing overall safety.

**Injury Prevention:** Significantly reduces the risk of severe injuries from glass cuts. This is particularly effective in preventing accidents involving contact with or breakage of glass doors.
