

MINDCLICK Sustainability Achiever

ABG Hospitality is proud to say that the MindClick Group a product intelligence company that rates environmental health performance, has ranked us as a Sustainability Achiever with the following product families: Cast Marble Products, Glass Shower Enclosures, Porcelain-On-Steel Products, Solid Surface Products, and Health & Wellness Products.

Cast Marble and Porcelain-On-Steel Products

MAS Certified Green, which uses the California Dept. of Public Health Standard Method v1.2. This rating shows that we conform with LEED v4.1 ID+C, BD+C and LEED TVOC Emissions standards for low-emitting materials.

Solid Surface Products

GreenGuard and GreenGuard Gold Certification - meets rigorous standards of chemical emission limits and safety factors. This certification allows us to contribute LEED points to projects pursuing LEED Certification under MR Credit: Recycled Content, MR Credit Regional Materials, EQ Credit: Emitting Materials Adhesives and Sealants

Reducing Our Carbon Footprint

Our manufacturing process is rigorous and we strive to continually improve our process with the latest technologies that reduce our carbon footprint.

Reducing VOCs & Pollutants

We utilize a closed molding process which significantly reduces airborne VOC's and other pollutants.

Recycling & Reusing

Byproducts used in our compression-molding presses are recycled and reused. More than 90% of scrap cardboard is recycled. All ferrous metals are recycled.

Reducing Consumption

Solvents are recovered on-site reducing consumption by 40%

Committing to Reduction Programs

An aggressive materials reduction program significantly lowers consumption of paper, wood products and many other materials used in the office and plant.
