BEAUTY THAT'S BUILT FOR LIFE.

We make **life-proof** bathware that withstands the construction process and the test of time.

It's easy to maintain and hard to damage. Our attractive finishes take time to achieve, but it's why they last a long time. Higher quality materials and unmatched manufacturing excellence adds up to **beauty that lasts — year after year.**

Most bathware looks good on day one. But time is the true test of quality. After the dings, the soap scum, the thousands of showers and baths, the cleaning and dropping and banging and scuffing — that's when you will appreciate how AKER performs beautifully.

4 REASONS TO CHOOSE AKER.

Performance from every angle. Top, bottom, front and back — you'll see how every part of our bathware is engineered to last.

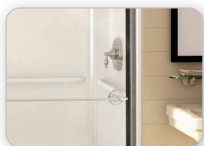

1 More resin, less fillers, and a hands-on approach

We hand roll the fiberglass and resin laminate, and we don't skimp on the mix. You'll find no exposed fiberglass strands, uneven surfaces, air bubbles or cracks here. We'll continue to invest more in our mix. We know you will see the difference — today, and years from now.

2 Reinforced sides for a sturdier and safer shower

Sidewalls reinforced with fiberglass and wood ensure sturdier shower door and grab bar installation, meaning a **safer overall product**.

3 Stunning finishes

AcrylX™ is a superior quality, applied acrylic finish that is stronger and built to withstand scratches, chips, and cracking that is easy to repair. AcrylX™ has a **visibly truer white color** that is glossier and shines brighter than gelcoat. Plus, the material's UV resistant properties means the white **will not fade over time**. Finally, AcrylX™ delivers real value by coming with a limited lifetime warranty in residential applications.

4 Structurally reinforced bottoms

ArmorCore™ is a resin-based reinforcement that chemically bonds with other layers of construction, creating an **incredibly strong integral structure**. Aker products with ArmorCore™ bottoms have been tested up to 1800 lbs of pressure without cracking or breaking. Flexible, scored sheets contour almost any bathing unit, ensuring a solid bond at all points and is **impervious to moisture and freezing**. At Aker, we are proud to build products that will endure the test of time and use.

KDS SERIES

FULL LINE OF KNOCK DOWN SHOWERS & TUB SHOWERS

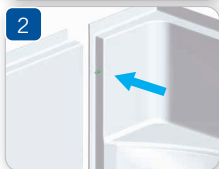

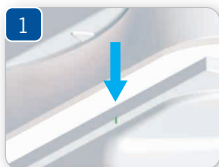

Thanks to our **easy steps** installation, you're saving time and money with AKER

- ✓ Get it right the 1st time: **Perfect alignment of pins and holes for easier and stronger installation.**
- ✓ **No wet-set "Anti-Flex" base system**, providing **superior strength and durability**: no need to fill the space between the floor and the base with concrete or any other material eliminates wet-setting.
- ✓ Straight front apron for **easy tile installation.**
- ✓ **Above-the-Floor Rough option** designed with enough space to pipe directly under the unit without relocating the drain.

STEP-1 Level and install the shower base or the bathtub in the alcove.

STEP-2 Apply silicone and install the walls using the PIN system to guide them in place; (Install the back wall and slide the side walls in).

STEP-3 Secure the wall parts to the studs (shim if necessary).

3 REASONS TO BUY A KDS SHOWER OR TUB SHOWER

1 Easy to install

- Easy **1-person** front installation
- Hassle-free patented **PIN system**
- Packaged in 3 boxes
- **Above-the-Floor Rough** – No need to relocate the existing drain

2 Modern & Functional

- Ample storage space
- **One-piece** look
- **Easy to clean** anti-slip surface
- Improved low threshold shower bases
- Optional **grab bars** & **wall reinforcement**

3 Versatile

- Right, left or no seat available
- Base only available for tile application

Modern and stylish grab bars

Aker grab bars are now available with all KDS/KDTS units. Select the color that suits your style and specific needs: white, chrome or brushed nickel. **18" or 24" horizontal and vertical grab bars** available.

BODYWRAP.

WHIRLPOOL SYSTEM

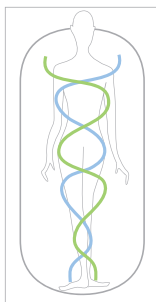

Swaddle yourself in comfort

The AKER Bodywrap system's unique whirlpool action **provides the solace** people need most after another long day's stresses and strains.

Soft spirals of water corkscrew up and around the body from toe to torso, swaddling the bather with **amazing tension-relieving comfort**. For those needing a more vigorous hydromassage, personalize the airflow and spray direction of up to a dozen whirlpool jets for a pulsating action that **re-energizes and alleviates sore** backs and aching feet.

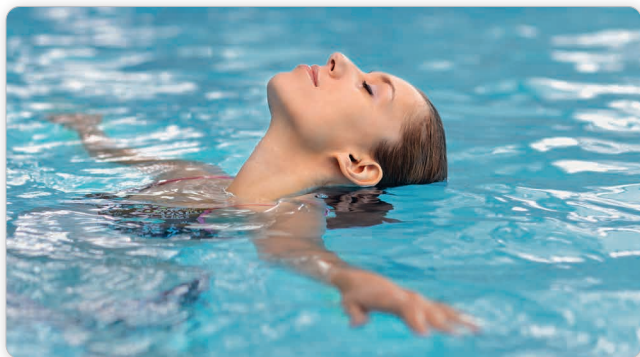

Features

- 10 or 12 jets
- 2 foot/ankle massage jets
- 2 micro pulse lumbar jets
- 6 adjustable comfort-flo side jets
- Twin air controls
- Micro-switch on/off control with 20 minute electronic timer
- 1 HP pump

HOMESTEAD.

WHIRLPOOL SYSTEM

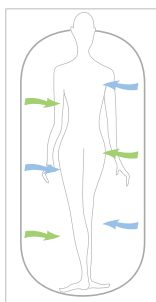

Hassle-free hydrotherapy

Enjoy the simple pleasures of life again with the AKER Homestead system, [our original personal relaxation system](#) for the bath.

Up to 8 fully independent jets can be adjusted directionally and for flow, giving bathers complete control of the intensity and location for [a superior massage experience with the ultimate ease](#). Whether they want a gentle, reassuring caress or a deep, tension relieving rubdown, this is [hydrotherapy without hassles](#).

Features

- 4, 6 or 8 adjustable jet system
- Pneumatic on/off controls
- 3/4 HP pump

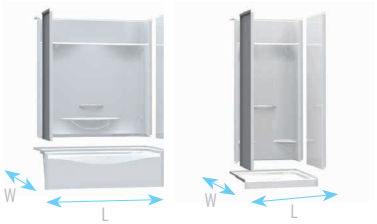

LOOKING FOR A SPECIFIC SIZE?

Your dream bathroom begins with a good plan

Bathrooms may be the smallest rooms in most homes but they are among the most important to many people's everyday sense of being.

PIN SYSTEM

A secure fit every time

Our enhanced, patented front installation **PIN system** was designed with the installer in mind. Used in our KDS Series, this **time-and-money-saving solution** eliminates the need for rear access. And pins are made of sturdier material for a tighter fit between the parts.

Our sturdy, innovative PIN system is available in our KDS Series of multi-piece showers and tub showers.

KD-NAS

FEATURES:

- Two-piece neo-angle corner shower
- Built-in corner shelf
- Textured floor
- Center drain

38" L x 38" W x 77" H

ABOVE-THE-FLOOR ROUGH

What does it mean for you?

Above-the-Floor Rough or AFR means there is enough space to pipe directly under the bathtub without having to relocate the existing drain. What does this mean for you?

Less time and hassle on the job.

Available Doors

A wide selection of MAAX doors is available to fit your bathtub, tub shower, shower and shower base.

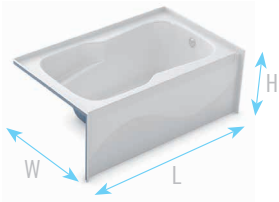

For more information, consult www.maax.com

SUPERIOR FINISH

- AcrylX™, applied acrylic is a superior luster, truer white, acrylic finish. It's a patent pending, proprietary system that offers the widest array of bathing products at the greatest value.

SIMPLY EASY

- You can rest assured knowing that we will stand behind our products 100% of the time, so you can be confident in selling our products to your customers. We've backed AcrylX™ with an unprecedented Lifetime Warranty.

Outlook *plus* series

Full-Strength Bathware Line.
Engineered for Those with Special Needs.

ACCESSIBILITY CODE COMPLIANT SERIES

The Outlook Plus code compliant series provide accessibility and optimal safety. Code-specific option packages for seats and grab bars make choosing the right unit a snap.

GENERATION+ SERIES

We apply our design innovation to universal user-friendliness and comfort for ultimate peace of mind. Stylish accessories and built-in features let you adapt for lifestyles from cradle to cane.

Visit www.akerbymax.com
for more details.

AKER'S CUSTOMIZED OPTIONS.

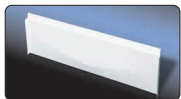

Personalize any AKER bathware so its best suits your sense of style and desired showering and bathing experience by choosing among our selection of options that can be ordered separately.

Bathtubs

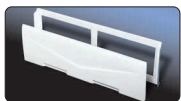

In-line heater

Stay warm a little longer with AKER in-line heater.

Apron

Removable or non-removable apron offered on specific bathtubs allowing two different configurations: Drop-in or alcove installation.

Access Panel

For easy access to your bathtub whirlpool system. Facilitate maintenance.

Above-the-Floor Rough (AFR)

Products designed with enough space to pipe directly under the bathtub without having to relocate the existing drain.

Tub Showers & Showers

Handle

Metallic or acrylic finish handle to match bathroom accessories.

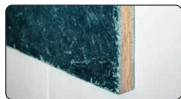

Shelf rail

Added shelf space to hold bottles of varied size.

Grab bars

Modern, vertical and horizontal grab bars are available on multiple AKER units. Select the color that suits your style and specific needs.

Wall reinforcement

Allow for the installation of additional grab bars, if needed and a safer shower door installation.

Roofcap & light

Roofcap allow easier wall finishing while the custom built light helps to shed a little extra light on the area inside your shower stall.

Above-the-Floor Rough (AFR)

Products designed with enough space to pipe directly under the bathtub without having to relocate the existing drain.

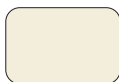

COLOR CHART.

Aker **offers color choices** that you just cannot find from other manufacturers. We even have options that coordinate with your sink and toilet.

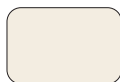

Standard AcrylX™ Colors

White

Bone

Biscuit

Upgrade AcrylX™ Colors

Black

Sterling Silver

Thunder Grey

Note: Non-standard colors are not available on the S-36T unit.

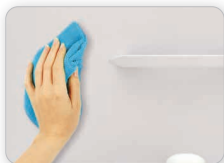

MAINTENANCE.

AKER uses **durable, high quality materials and innovative technology** in manufacturing and design of its products to reduce the time needed to spend cleaning and caring for them. However, proper and regular maintenance is still vital.

Follow these general use and maintenance tips, as well as any that come with the AKER products, and you will be rewarded with years of great service.

Bathtubs / Tub Showers / Showers / Shower Bases **Maintenance**

- ✓ **Wipe down after every use** with a squeegee or soft cloth. This reduces the buildup from soap, bath additives, natural body oils and mineral deposits in water, making cleaning easy and helping to maintain the unit's natural luster.

- ✓ **Clean regularly** with a non-abrasive cleaning spray or cream-based cleansing agent. Never use abrasive cleansers, scrapers, metal brushes, or anything that could scratch or dull the surface.

Whirlpool **Maintenance Tips**

Clean piping and pump monthly. Fill the bathtub with hot water (max. 104°F/40°C) to two inches (5 cm) above the jets, add the cleansing agent, and turn on the whirlpool system for 20 minutes. Empty the bathtub. Use cold water to rinse, turning the system back on for 20 minutes, while keeping the air controls turned off.

EXPERIENCE

A GREENER **MAAX**[®]

The environment is important to all of us. We, at MAAX, believe in doing our part in reducing our ecological footprint.
