

BEAUTY THAT'S BUILT FOR LIFE.

We make life-proof bathware that withstands the construction process and the test of time.

It's easy to maintain and hard to damage. Our attractive finishes take time to achieve, but it's why they last a long time. Higher quality materials and unmatched manufacturing excellence adds up to **beauty that lasts** — year after year.

Most bathware looks good on day one. But time is the true test of quality. After the dings, the soap scum, the thousands of showers and baths, the cleaning and dropping and banging and scuffing — that's when your homeowners will appreciate how AKER performs beautifully. And you'll appreciate the fewer callbacks that means for you.

KDS SERIES

FULL LINE OF KNOCK DOWN SHOWERS & TUB SHOWERS

**A COMPLETE SERIES OF PRODUCTS
THAT ALWAYS WORK**

3 reasons to buy a KDS

- 1 Easy to Install
- 2 Modern & Functional
- 3 Versatile

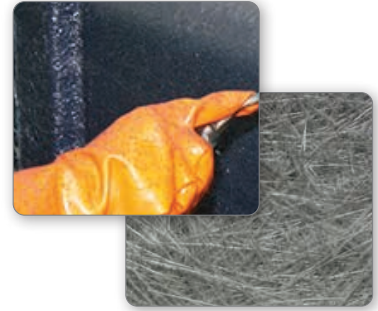

4 REASONS TO CHOOSE AKER.

Performance from every angle. Top, bottom, front and back — you'll see how every part of our bathware is engineered to last.

1 More resin, less fillers, and a hands-on approach

We hand roll the fiberglass and resin laminate, and we don't skimp on the mix. You'll find no exposed fiberglass strands, uneven surfaces, air bubbles or cracks here. We'll continue to invest more in our mix. We know contractors and their customers will see the difference — today, and years from now.

2 Reinforced sides for a sturdier and safer shower

Sidewalls reinforced with fiberglass and wood ensure sturdier shower door and grab bar installation, meaning a **safer overall product**.

3 Stunning finishes

AcrylX™ is a superior quality, applied acrylic finish that is stronger and built to withstand scratches, chips, and cracking that is easy to repair. AcrylX™ has a **visibly truer white color** that is glossier and shines brighter than gelcoat. Plus, the material's UV resistant properties means the white **will not fade over time**. Finally, AcrylX™ delivers real value by coming with a limited lifetime warranty in residential applications.

4 Structurally reinforced bottoms

ArmorCore™ is a resin-based reinforcement that chemically bonds with other layers of construction, creating an **incredibly strong integral structure**. Aker products with ArmorCore™ bottoms have been tested up to 1800 lbs of pressure without cracking or breaking. Flexible, scored sheets contour almost any bathing unit, ensuring a solid bond at all points and is **impervious to moisture and freezing**. At Aker, we are proud to build products that will endure the test of time and use.

Warranty

AKER by MAAX stands behind its products with industry-leading warranties against structural, surface and cosmetic defects. AcrylX™ units are covered by an unprecedented lifetime warranty.

INNOVATION FOR A FLAWLESS INSTALL.

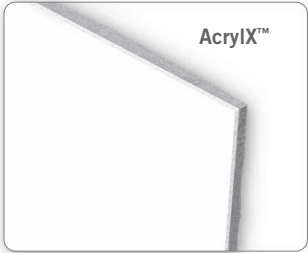

We never stop questioning, learning and innovating — continually providing solutions that make installation easier and ensure [perfect results every time](#). That's how we guarantee peace of mind all the way.

1 Forget wet-setting

Our pre-leveled **Anti-Flex Base System** makes wet-setting a thing of the past and results in a **quicker and easier installation**. No need to fill the space between the floor and the base with concrete or any other material, meaning you can save time and money on the job site.

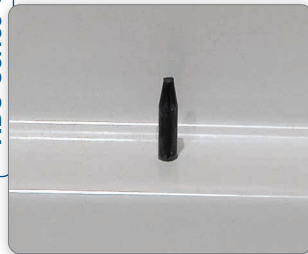

2 Stunning finishes

AcrylX™ is a superior quality, applied acrylic finish that is stronger and built to withstand scratches, chips, and cracking that is easy to repair. AcrylX™ has a **visibly truer white color** that is glossier and shines brighter than gelcoat. Plus, the material's UV resistant properties means the white **will not fade over time**. Finally, AcrylX™ delivers real value by coming with a limited lifetime warranty in residential applications.

3 The one-piece look, without the one-piece hassle

Our **multi-piece solutions** have been designed so one person can easily navigate doorways, hallways and even winding staircases, but that doesn't mean you have to sacrifice on style. We've created vertical and horizontal offsets to better integrate the seams. Joints between the back wall and side walls are moved to the side, **reducing visibility of the seam**.

4 A secure fit every time

Our enhanced, patented front installation **PIN system** was designed with the installer in mind. Used in our KDS Series, this **time-and money-saving solution** eliminates the need for rear access. And pins are made of sturdier material for a tighter fit between the parts.

Did you know? Our sturdy, innovative PIN system is available in our new KDS Series of multi-piece showers and tub showers.

KDS Series Unique Features

Barrier free

AKER special needs products aim to promote autonomy while **simplifying the user's day-to-day life**. Every **Outlook^{plus} Series** model features easy access, optimal comfort and safety, and high functionality.

TUB SHOWERS

AKER tub showers are both functional and comfortable. They come with a set of optional upgrades that allow complete customization.

WHIRLPOOL / SOAKER

We offer an array of **soaking tubs**, which feature one-piece construction, lumbar support, textured floor pattern and twin contoured arm rests. Any of the below soaker units can also be upgraded to one of our complete AKER whirlpool systems.

The **Bodywrap System** delivers complete hydrotherapy with a unique whirlpool action that sends soft spirals of water that envelop the entire body. This system features a factory-installed 10- or 12-jet system, including adjustable comfort-flo side jets, foot/ankle massage jets and micro pulse lumbar jets.

The **Homestead Whirlpool** combines advanced hydro-massaging technology with individual flow and directional adjustable jets. It includes a factory-installed, adjustable 4-, 6- or 8-jet system with pneumatic on/off controls.
