# Build to a higher standard

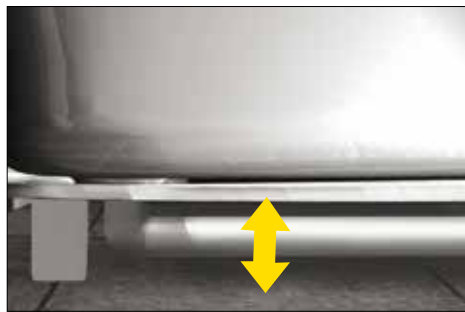

MAAX Professional products are designed with unique constructive details that **make the installation job easier and faster.**

## Integrated tiling flange (IF) and integrated apron (IFS)

Some MAAX bathtubs are equipped with a **leakproof integrated tiling flange** that requires less time to install and saves effort. The integrated apron is molded with the bathtub, **adding ease of installation.**

## Above-the-Floor Rough (AFR)

MAAX Professional offers many products designed with enough space to **pipe directly under the bathtub without having to relocate the existing drain.** Perfect for concrete slab installation in renovation or new construction.

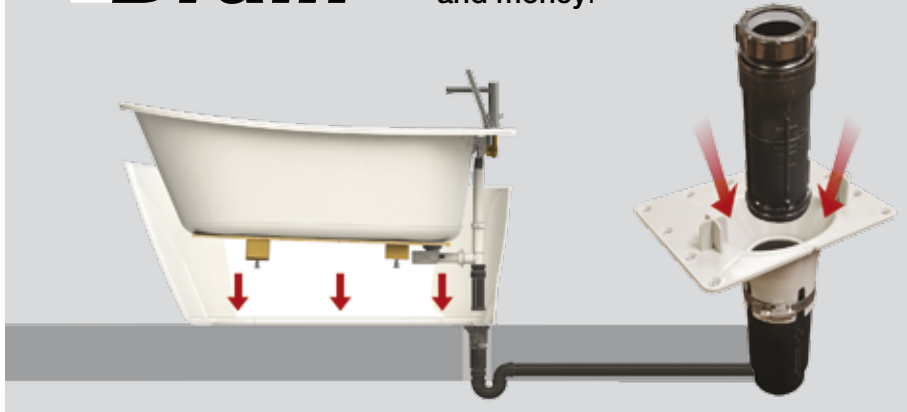

## Adjustable leveling legs

Leveling a freestanding bathtub has never been easier. **MAAX's innovative adjustable legs** have an impressive **3 in. height** range that **requires no tools to adjust** and firmly lock in place.

## F<sup>2</sup> Drain

With F<sup>2</sup> Drain\*, there's no need to demolish the ceiling to access the plumbing—**saving you time and money.**

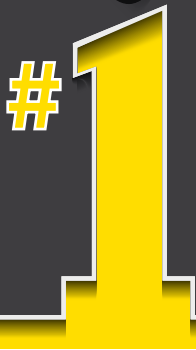

## One-piece and multi-piece

Most of MAAX showers and tub showers are available as one-piece or multi-piece to **ease the transportation and fit easily** through standard door openings.

## Shower doors

MAAX shower doors are designed and manufactured to the highest standard to ensure **watertight closing and perfect fit.**

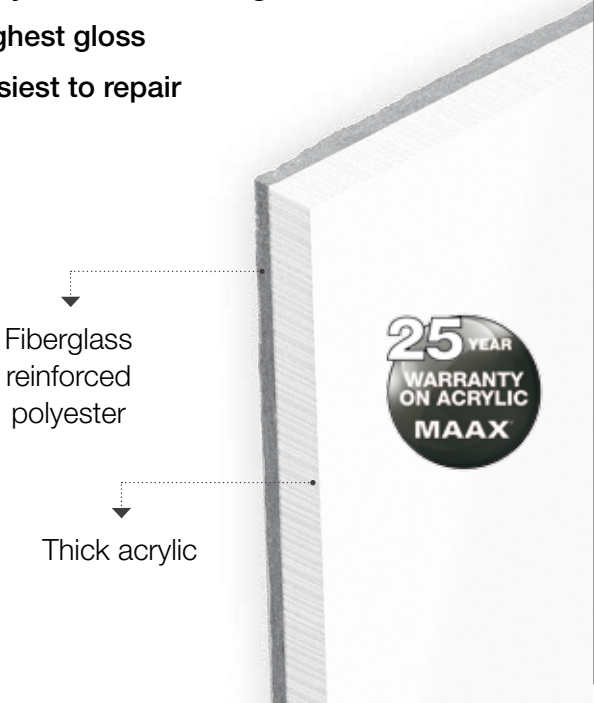

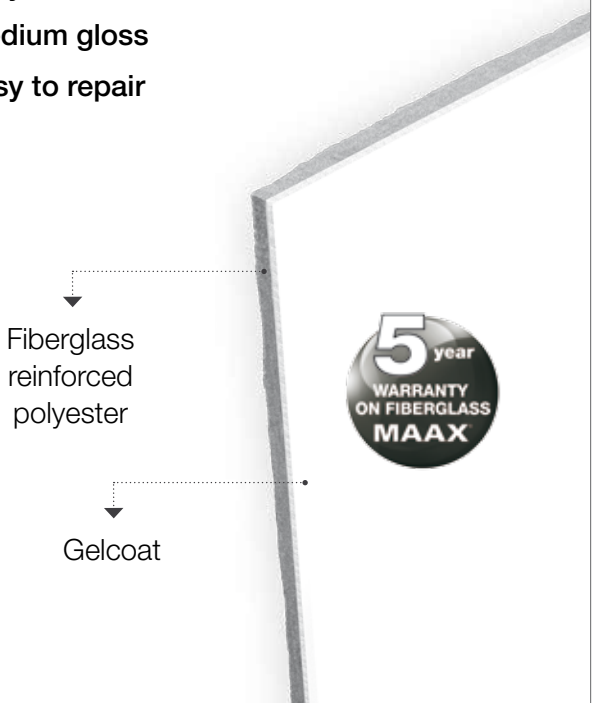

\*Available on specific freestanding bathtub models

# MAAX materials, maximum quality

## The choice of builders and homeowners

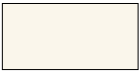

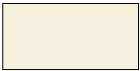

MAAX quality is built in during manufacturing to provide the **toughness you need and long term satisfaction**. The same product fits exactly the same way each time. Automated production and coating technology ensures precise and consistent thickness and finish, as well as overall quality.

Acrylic (Thick acrylic reinforced with fiberglass)	Fiberglass (Gelcoat reinforced with fiberglass)
How is it made?	
Acrylic units are vacuum-molded from sheets of colored acrylic and strengthened with fiberglass reinforced polyester.	Gelcoat units are sprayed with a pigmented polyester resin into a mould and strengthened with fiberglass reinforced polyester.

# Freestanding Bathtubs

# The art of freestanding bathtubs

Building on a European trend of artful functionality, **MAAX gives its freestanding tubs a sculptural quality.** We modernize the timelessness of their weighty claw-footed predecessors with **clean, crisp lines and balancing angles and curves** for a true visual feast that others will envy.

## Color your world

Add a personal touch to your bathroom, and **customize your bathtub with our designer color options.** Select an optional outer skirt in one of 4 trendy hues—**Black, Aqua, Platinum Grey and Ruby**—to create an artistic accent or complementary centerpiece to your bathroom décor.

## Unmatched ease of installation

Our freestanding bathtubs have innovative features that make installation easy and affordable.

- MAAX innovative leveling legs
- Above-the-Floor Rough (AFR)
- 2-piece shell construction
- Compatible with MAAX F<sup>2</sup> Drain
- Ample deck space for faucet installation
- Accommodate universal drain and overflow

### Easy, innovative bathtub leveling

Leveling a freestanding bathtub has never been easier. **MAAX's innovative adjustable legs** have an impressive 3 in. height range that **requires no tools to adjust** and firmly lock in place. Three vertical reference numbers eliminate guesswork, allowing for **quick setting of each leg to the same height.** Increased floor-to-leg contact area ensures **secure footing.**

## The Perfect Storage Accessory

Clutter can make your shower anything but relaxing and most shower storage accessories lack the space to offer a complete solution. Our **easy-to-clean**, three-shelf acrylic storage niche eliminates the problem once and for all. **Designed for tiled showers**, the unit is simply **fastened to studs before tiling** and provides ample space to hold your personal care products in easy reach.

Convenient. Spacious. Sturdy.

# EXPERIENCE A GREENER **MAAX**<sup>®</sup>

The environment is important to all of us. In our continued effort to **reduce our carbon footprint**, we have decided to slightly reduce the weight of our paper used in our Literature. Therefore, we are pleased to announce that this effort will have a positive reduction of:

**84 mature trees** 🌿 **12,910 kg CO<sub>2</sub>** 🌿 **353,743 gallons of water** <sup>1</sup>

This North-American produced paper is certified FSC<sup>®</sup>. FSC<sup>®</sup> certification guarantees that all fibers used come from renewable sources and meet the highest international standards. With your cooperation and understanding, through a simple gesture, it is quite impressive to see how we can all contribute improving our environment.

**We also invite you to use our electronic documents** and don't forget to recycle your old Literature! No matter how small the effort, it makes a difference!

<sup>1</sup> Environmental impact estimates were made using the Environmental Paper Network Paper Calculator Version 3.2. For more information visit [www.papercalculator.org](http://www.papercalculator.org).
