

ALOHA

THE INDUSTRY'S #1 SELLING STEEL BATHTUB

PROVEN STRENGTH

Known for its strength and pliability, steel has the perfect mix of properties to build bathtubs that last. Bootz has pressed durable tubs out of steel since 1938!

BRILLIANT AND BEAUTIFUL

The brilliance of porcelain is timeless and classic. Its delicate finish is matched only by its tough performance—the perfect canvas for showcasing tile walls.

GENUINE VALUE

Innovations like our proprietary Premium Cast backing system deliver cast iron quality at up to half the price. It's the lighter-weight, easier-to-handle alternative!

THE OVER-ACHIEVER

Our best-selling model, the Aloha is a proven winner, offered in both standard and AFR skirt heights. With its popular 60 x 30 dimension, classic porcelain finish and durable steel core, the Aloha is the ideal choice for tile-up tub-shower applications.
