010-1302 SLIP-RESISTANT – RH SQUARE DRAIN

010-1303 SLIP-RESISTANT – LH SQUARE DRAIN

DESCRIPTION:

ShowerCast 6036 is a 60" x 36" x 3" porcelain enamel steel shower base, designed for new installations and remodel applications where an easy-access shower solution with roomier width is desired. Bootz ShowerCast 6036 is a step above plastic/composite competitors, inviting quality upgrades to residential, hospitality, and commercial (hotel, motel, and multi-family housing) applications. ShowerCast 6036 is constructed of one-piece heavy gauge seamless steel with an acid-resistant, high gloss, sanitary, and stain-resistant porcelain enamel finish. ShowerCast 6036 has the same length as typical industry-standard 5' bathtub, designed with a low 3" threshold for easy entry, weighs only 55 lbs., and is very easy to install – just set and level it. The full length support pad provides added strength for better durability, a flat base for ease of installation, and noise absorbing capabilities for a luxurious, peaceful shower. This product is compatible or complies with ASME A112.19.1/CSA B45.2 (Standard for Enameled Steel Plumbing Fixtures), ASTM F 462 (Safety Specification for Slip Resistant Bathing Facilities), WW-P 541 (U.S. Military Federal Specification), HUD-FHA-VA, LEED, and the Buy American Act, as applicable when installed accordingly. Available in white with right- or left-hand drain. All square drain shower pans come with a drain kit. Square grid drain comes with a PVC drain kit with adapter; square solid cover drain is magnetic and comes with a FR-PVC drain kit. Square drain shower bases come in one (1) color: White (00). Square grid drain covers come in five (5) finish choices: Chrome (CH), Brushed Nickel (BN), Dark Bronze (DB), Matte Black (MB), or Brushed Gold (BG). Square solid covers come one (1) finish choice: White (SW).

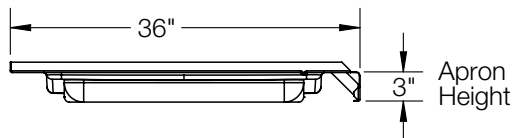

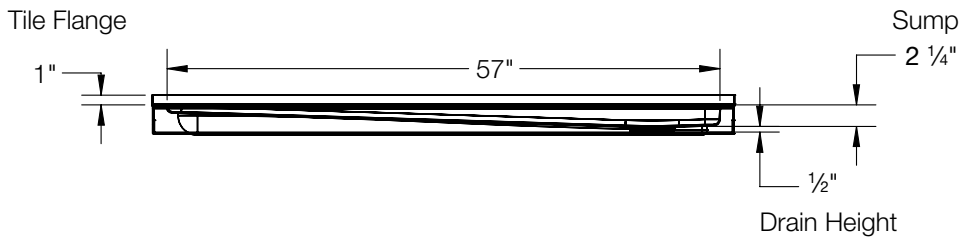

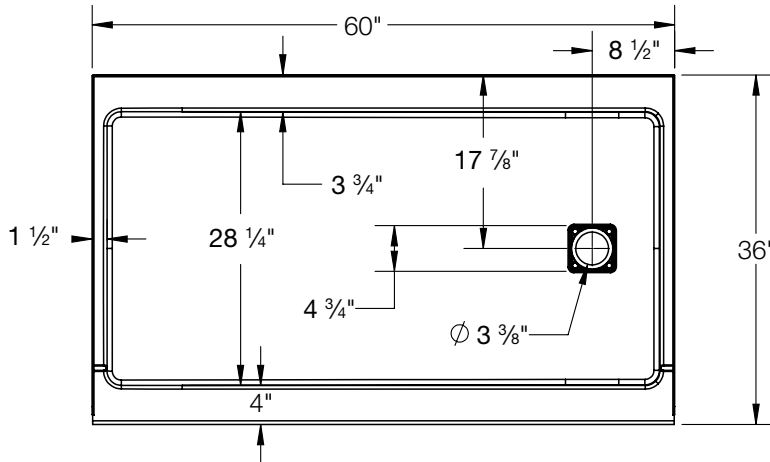

Weight: 55 lbs
