DESCRIPTION:

ShowerCast Plus is a 60" x 32" x 4" porcelain enamel steel shower base 2" wider than the standard ShowerCast, designed for new installations and remodel application where an easy-access shower solution with roomier width is desired. Bootz ShowerCast Plus is a step above plastic/composite competitors, inviting quality upgrades to residential, hospitality, and commercial (hotel, motel, and multi-family housing) applications. ShowerCast Plus is constructed of one-piece heavy gauge seamless steel with an acid-resistant, high gloss, sanitary, and stain-resistant porcelain enamel finish. ShowerCast Plus has the same length as typical industry-standard 5' bathtub, 2" wider for more space, shares similar drain-hole location (for easier remodel plumbing), weighs only 50 lbs., and is very easy to install – just set and level it. The full length support pad provides added strength for better durability, a flat base for ease of installation, and noise absorbing capabilities for a luxurious, peaceful shower. This product is compatible or complies with ASME A112.19.1/CSA B45.2 (Standard for Enameled Steel Plumbing Fixtures), ASTM F 462 (Safety Specification for Slip Resistant Bathing Facilities), WW-P 541 (U.S. Military Federal Specification), HUD-FHA-VA, LEED, and the Buy American Act, as applicable when installed accordingly. Available in white with right- or left-hand drain. All square drain shower pans come with a drain kit. Square grid drain comes with a PVC drain kit with adapter; square solid cover drain is magnetic and comes with a FR-PVC drain kit. Square drain shower bases come in two (2) colors: White (00) and Matte Black (99). Square grid drain covers come in five (5) finish choices: Chrome (CH), Brushed Nickel (BN), Dark Bronze (DB), Matte Black (MB), or Brushed Gold (BG). Square solid covers come in two (2) finish choices: White (SW) or Matte Black (SB).
