BUILT FOR CAMPUS LIFE

Comfort Designs bathware is built to meet the demands of today's student living environments. From student apartments and residence halls to athletic locker rooms and campus facilities, our durable bathing solutions combine accessibility, safety, and everyday performance. With ADA and ANSI-compliant options, practical designs, and products engineered to withstand frequent use, Comfort Designs helps colleges, universities, architects, and developers create bathrooms that are functional, comfortable, and built for campus life.

30-year warranty

Most units are backed by an industry-leading 30-Year Commercial Warranty.

High-performing materials deliver an ideal balance of durability, style, and value.

One source for student housing bathware—from showers and tub showers to accessories and more—available in one-piece and multipiece units for new construction or renovation.

Easy to clean, maintain, and repair for dependable long-term performance.

A Specification Pro serves as an extension of your project team, helping you select the right bathing solutions and avoid costly mistakes.
