### ADA-COMPLIANT

Various Clarion AGING IN PLACE models are ADA-compliant, when properly accessorized. That means these select products fit within the regulations set forth by the American with Disabilities Act.

# Better Starts Now!

Clarion Bathware products are now made with Armorcore™ and AcrylX™

# AcrylX

with the strength of

**ARMORCORE™**

EXCEPTIONAL STRENGTH  
SUPERIOR FINISH  
LIFETIME WARRANTY

# EXCEPTIONAL STRENGTH

## The Strength of **ARMORCORE™**

- AcrylX™ with the strength of ArmorCore™ eliminates the hassle of damages that occur during handling and transportation that cost time and money.
- We've eliminated the common issues associated with traditional base construction. No more expensive repairs!
- ArmorCore™ has been tested far beyond industry standards. Even at 1,800 lbs of pressure it refuses to fail.

# SUPERIOR FINISH

- AcrylX™ has a visibly true white, deep lustrous finish that can only be achieved with an acrylic surface. We've upgraded the value of the everyday product.
- Whether in a warehouse or a new house an AcrylX™ product will resist scratching, cracking and chipping and will maintain a "factory-new" finish over its lifetime.
- AcrylX's™ UV properties resist fading, low porosity helps maintain luster and makes cleaning easier, and other natural properties make it less susceptible to chemicals. All enhancing value and reducing everyday issues.

# SIMPLY EASY

- No more wasted time looking for the design and configuration customer needs. We have hundreds of models to choose from. Our entire everyday offering is now available to you in AcrylX™ with the strength of ArmorCore™.
- You can be confident that we will stand behind our products 100% of the time, so you can be confident in selling our products to your customers. We've backed AcrylX™ with the Strength of ArmorCore™ with an unprecedented Lifetime Warranty.
- Our new AcrylX™ with the Strength of ArmorCore™ increases the value of our everyday product without changing model numbers, specifications, SKUs, or price!

**AcrylX™** with the strength of **ARMORCORE™**  
AcrylX™ with ArmorCore™, shown above at left, compared to standard gelcoat unit, at right.

AcrylX™, Applied Acrylic offers a high gloss, truer white finish. The finish material is less porous which creates an easier to clean surface. The high luster results in a longer lasting finish, meaning a factory new look years after installation.

The structural integrity is greater than previous products; reducing the chances of surface cracks during transportation and installation.

## **ARMORCORE™**

ArmorCore™ RRP (Resin Reinforced Product) offers unprecedented structural strength in everyday bath products. Testing demonstrates a 600% above code weight rating on the base while only increasing the unit weight by an average of 1-3%.

ArmorCore™ RRP outperforms traditional FRP due to the integral nature of its chemically bonded resin structure. ArmorCore™ RRP does not require foundation or bedding material for installation.

ArmorCore™ RRP produces the strongest, most resilient product in the industry, impervious to moisture and freezing, and better suited to the rigors of construction than any other product.

- MF3940LKD34CD or MF3940RKD34CD
- MF6538LBF78 or MF6538RBF78
- MP3837DBF34CD
- MP8851BF34 or MP8852BF34
- MF8841BF34 or MF8842BF34

### Available in

- right hand
- left hand
- \*double return

## SIDE RETURN FLANGE

Return flange on the seat wall makes compliance with **ADA & ICC A117.1-2017** transfer shower code a snap! Just install per instructions and folding transfer shower seats will be within 3" of the shower compartment opening per code. Return Flange units provide a great finished fiberglass solution compartment entry, establishing absolute compliance for these shower units, eliminating construction errors for this issue.

**Ask your dealer or one of our sales consultants for more information**

- AcrylX™ • Residential Lifetime Warranty • Accessories are optional
- 30 Year Commercial Warranty • Slip resistant floor
- Certified to meet CSA B45.5/IAPMO Z124 standard

- Unit handed by drain location

### Accessorize it today!

Be sure to add the right combination of accessories to make your shower perfect, comfortable, and accessible.

(See page 31 for all accessory options.)

## E-Z PIN

**EASY TO INSTALL—NO NUTS OR BOLTS**

**E-Z PINS**

**CORNER**  
(Front View)

**CORNER**  
(Back View)

### STEP 1

Frame a square and plumb pocket.

### STEP 2

Set, level and secure the base.

### STEP 3

Apply sealant and install back wall using Clarion's patented E-Z Pin system.

### STEP 4

Apply sealant and install left and right walls using the E-Z Pin System.

With Clarion Bathware's patented E-Z Pin System, installing a shower or tub/shower has never been easier. No nuts or bolts are required during the installation, and all E-Z Pin units can be installed at any stage of the construction process.

The E-Z Pin System enables professionals and do-it-yourselfers to roughly fit the shower or bathtub into the framing pocket and easily remove it to make adjustments to the pocket or drain. The units can literally be installed in four E-Z steps.

\*Optional on two- and three-piece sectionals.  
Standard on four-piece sectionals.

## E-Z INSTALL PRE-LEVELLED FLOOR

Front

### New E-Z Install Pre-Levelled Floor Option

Introducing our new pre-levelled floor system available for all 3/4 inch barrier-free units

Back

- Saves time
- No saw needed
- Simplified standard install
- Removable shipping legs
- Unit will install level on any properly prepared flat surface

Unit now comes with removable shipping blocks attached on the bottom of the back wall (as seen in Figure 1).

Remove the screws with a screwdriver (Figure 2), then remove and discard the shipping blocks (Figure 3). The unit will now sit level on any flat and level surface.

**\*Note Pre-Levelled Floor systems are not self-supporting and require bedding material for proper installation. See installation instructions for details.**

#### For Best Results Always:

- Use a level during installation
- Read and follow instructions

### New E-Z Install

Leave the saw outside!  
Our new pre-levelled floor eliminates the irritating hassle of sawing off the legs and leveling the unit on site.
