LIFETIME WARRANTY

EXCEPTIONAL STRENGTH

The Strength of **ARMORCORE™**

- AcrylX™ with the strength of ArmorCore™ eliminates the hassle of damages that occur during handling and transportation that cost time and money.
- We've eliminated the common issues associated with traditional base construction. No more expensive repairs!
- ArmorCore™ has been tested far beyond industry standards. Even at 1,800 lbs of pressure it refuses to fail.

SUPERIOR FINISH

- AcrylX™ has a visibly true white, deep lustrous finish that can only be achieved with an acrylic surface. We've upgraded the value of the everyday product.
- Whether in a warehouse or a new house an AcrylX™ product will resist scratching, cracking and chipping and will maintain a "factory-new" finish over its lifetime.
- AcrylX's™ UV properties resist fading, low porosity helps maintain luster and makes cleaning easier, and other natural properties make it less susceptible to chemicals. All enhancing value and reducing everyday issues.

SIMPLY EASY

- No more wasted time looking for the design and configuration customer needs. We have hundreds of models to choose from. Our entire everyday offering is now available to you in AcrylX™ with the strength of ArmorCore™.
- You can be confident that we will stand behind our products 100% of the time, so you can be confident in selling our products to your customers. We've backed AcrylX™ with the Strength of ArmorCore™ with an unprecedented Lifetime Warranty.
- Our new AcrylX™ with the Strength of ArmorCore™ increases the value of our everyday product without changing model numbers, specifications, SKUs, or price!

AcrylX
with the strength of
ARMORCORE™

AcrylX™ with ArmorCore™, shown above at left, compared to standard gelcoat unit, at right

AcrylX™, Applied Liquid Acrylic offers a high gloss, truer white finish. The finish material is less porous which creates an easier to clean surface. The high luster results in a longer lasting finish, meaning a factory new look years after installation.

The structural integrity is greater than previous products; reducing the chances of surface cracks during transportation and installation.

ARMORCORE™

ArmorCore™ RRP (Resin Reinforced Product) offers unprecedented structural strength in everyday bath products. Testing demonstrates a 600% above code weight rating on the base while only increasing the unit weight by an average of 1-3%.

ArmorCore™ RRP outperforms traditional FRP due to the integral nature of its chemically bonded resin structure. ArmorCore™ RRP does not require foundation or bedding material for installation.

ArmorCore™ RRP produces the strongest, most resilient product in the industry, impervious to moisture and freezing, and better suited to the rigors of construction than any other product.

PULSATING

Bubble Jet & Whirlpool systems available

BUBBLE JET & WHIRLPOOL OPTIONAL

Many Clarion Tub/Showers can be ordered with a whirlpool or a bubble jet base. All units available with both options will have this mark next to them.

WHIRLPOOL SYSTEMS

We put the “mmmm” in massage. With just the right number of water jets in all the right places. Our acrylic and AcrylX models are built for years of enjoyment with 3/4 HP rated motors and factory installed air control, suction outlet and on/off switch.

BUBBLE JET SYSTEMS

You've never experienced a rush like this. Our tubs feature 16 air jets that surround you with relaxing bubbles. To ensure long-lasting performance, each air jet has an individual check valve to ensure that water never gets into the airline.

ACCESSORIES

Enhance your experience even more with mood lights, head pillows or ergo bars. For more accessories see page 18 or visit www.ClarionBathware.com.

E-Z INSTALLATION **EASY TO INSTALL- NO NUTS OR BOLTS**

With Clarion Bathware's patented E-Z Pin System, installing a shower or tub/shower has never been easier. No nuts or bolts are required during the installation, and all E-Z Pin units can be installed at any stage of the construction process.

The E-Z Pin System enables professionals and do-it-yourselfers to roughly fit the shower or bathtub into the framing pocket and easily remove it to make adjustments to the pocket or drain. The units can literally be installed in four E-Z steps.

**Optional on two- and three-piece sectionals. Standard on four-piece sectionals.*
