

HEAVY DUTY SHOWER CURTAIN

MATERIAL: Heavy Duty 0.010" PVC
COLOR : White (W)
HEM WEIGHTS: Weighted
VENTING : Unvented
SIZE: ☐ 36*72; ☐ 48*72; ☐ 54*72; ☒ 72*72 (Inches)

Fire Resistant

The heavy duty fabrics resist combustion and will self-extinguish when the source of flame is removed.

Bacteria Resistant

The heavy duty fabrics have added-in bacterial resistant and will reduce the growth of bacteria. This built-in protection has a long time effect.

Stain Resistant

Most oils, greases, mildew and contaminants may be wiped off with soap, water and mild cleansers. Curtains are easily cleaned in place and maintain a fresh look.

Antistatic

The heavy duty fabrics have added-in antistatic agent, which prevents the build-up or retention of electrostatic charges that could interfere with sensitive life-support equipment.

Recommended Care

Any soils or stains that may accumulate on the shower curtain can be removed with the curtain in place. Use neutral soapsuds and lukewarm water. Rinse with water and allow the fabric to dry. For hard to clean spots, use a clean cloth with standard household vinyl cleaner. If necessary, use a soft bristle brush. DO NOT USE HARSH CLEANERS OR SOLVENTS. Laundering is not recommended. DO NOT IRON.
