Solutions For Your Every Need

ADA Compliant | Accessible | Safety

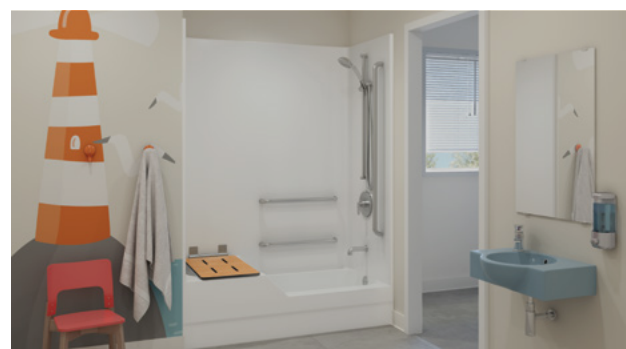

GENERAL PATIENT CARE

- ADA code-compliant shower packages available for general patient care
- Linear trench drains provide efficient water drainage
- Barrier-free showers allow easy access for all mobility levels

LABOR & DELIVERY

- Crafted solutions to assist new mothers while maintaining safety and accessibility
- Showers feature lower thresholds and larger seats
- Thoughtful designs create an inviting bathing space to invoke a calm, home-like environment

PEDIATRIC

- Our bathware is designed for a safe yet playful bathing environment
- Tailored units include smaller grab bars, low overflow thresholds, and accessible entry points for young patients

BEHAVIORAL HEALTH

- Comfort Designs offers solutions that promote safety for residents, patients, and staff
- Units are available with rounded corners and molded seats
- An offered range of ligature-resistant accessories reduce the risk of harm

INDIVIDUALS OF SIZE

- Unique needs of patients are met to provide safety, accessibility, and dignity
- Expansive showers provide a supportive bathing experience
- Products are designed with reinforced grab bars, extended shower hoses, and seats with higher weight capacity

CUSTOMIZED MOLDS

- Size and shape: Choose the perfect size and shape for your shower room, taking into account the needs of your patients and staff
- Entry and exit: Consider different entry and exit options, such as thresholds and tub heights
- Features: Add features such as grab bars and seats make your shower safer and more accessible
- Finishes: Choose finishes that are both durable and easy to clean
