- 34" (864mm) finished model opening
- 58" (1473mm) height
- 1/2" (13mm) min threshold require.

Installation Notes

Install this product according to the installation manual.

Please note that you should consult your local building codes with questions on installation compliance standards. Building and plumbing codes may vary by location, and DreamLine® is not responsible for code compliance standards for your project and will not accept any returns.

NOTICE: Prior to the installation, please ensure that the installation surface is level and solid and will be able to support the total weight of the unit. Also make sure the walls are at right angles. Irregular installation surface level or improper angle of side walls will result in serious problems for your installation. Note that some adjustments and drilling might be necessary during the installation process.

A (Width)	B (Height)
