PRAXIS partner protection

the only  
**PRODUCT  
PROTECTION  
PROGRAM**  
in the industry

## PARTNERSHIP & PROTECTION

Praxis Partner Protection, P3, is the assurance you need on a job site full of hazards. Assurance that at the end of the day P3 will have protected your tub from the typical job site issues that leave most others in need of repair and cleaning. The factory applied coating creates a barrier that protects the factory finish from dirt, dust, and debris - a coating that protects all of the way through the end of the installation process.

P3 gives you peace of mind that your customers will have a factory clean finish and that any typical job site damage that may occur is taken care of, at no charge to you. Praxis Partner Protection, P3, saves you time, saves you money, and saves you from some of the worries that the job site brings.

That's the power of P3.

## PRAXIS partner protection

The P3 Praxis Partner Protection™ guarantees the product surface and keeps it clean throughout even the nastiest construction process. Rain, snow, sun, wind, dirt and even the least thoughtful construction worker - the P3 Praxis Partner Protection™ protects your family from things you will never see.
