

Capella 78

Pivot Shower Door – 8mm

Key Features:

- GlassShield® technology pre-installed - provides extra layer of security for homes with children or elderly residents
- Wide opening - ease the access in and out of shower
- Strongly built sill, permanently fixed on the base - better water barrier
- Hinge with patent mechanism - offer 3" of lateral adjustment
- Additional 3/4" of out-of-plumb adjustment
- Header-less door, no height restriction
- New design, 17/8" deep, makes it compatible with many bases and tile solutions
- Reversible shower door allowing left or right opening
- Magnetized closure provides watertight solution
- Alcove & Corner installation - combine with a Capella return panel for a corner shower solution
- Support arm to increase sturdiness included

Capella 78

Pivot Shower Door – 8mm

What is GlassShield?

GlassShield® (GS) is a next-level safety innovation developed by MAAX that offers an added layer of protection to the tempered glass security features of our shower doors.

Similar to laminated glass safety technology used in the automotive industry, this transparent film is bonded directly and permanently onto the glass panel which provides more effective retention of glass fragments, keeping most of them together in one piece, in the rare case of glass breakage.

GlassShield Film

Features:

- GlassShield is a pre-installed, added value premium feature
- Extra layer of security for homes with children or elderly residents
- No special installation requirements for shower doors with GS - installs like a normal door
- Crystal-clear film doesn't change the color or gloss of the glass door
- Resistant to most solvents, chemicals and cleaners and hassle-free maintenance
