- 2 Choose a configuration** that best suits the dimensions and design of your bathroom, for example, alcove (3 walls), corner (2 walls), or any other layout.
- 3 Customize your products:** color, dimensions, frame finish, drain position, options and accessories.
- 4 View all your project details at a glance.** Print, email or save your design.
- 5 Keep your reference number to quickly access your configuration.**
- 6 Contact one of our distributors** to order your **ModulR** products.

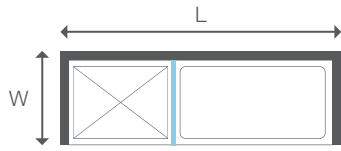

Combo - Wet room configuration

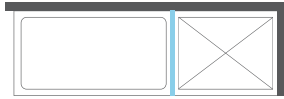

Combo - Compact configuration

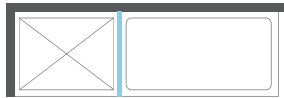

# INSPIRATION

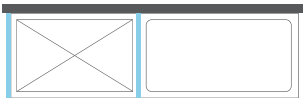

Alcove

Corner right

Corner left

Wall-mounted

## Linear configuration

Juxtaposition of a bathtub and a shower one next to the other for a sleek, streamlined layout.

### PERFECT FOR:

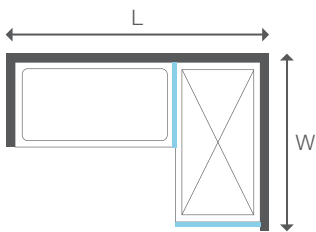

- long and narrow bathrooms

### AVAILABLE DIMENSIONS:

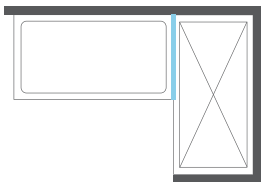

- 96" (L) x 32" (W)
- 105" (L) x 32" (W)
- 117" (L) x 32" (W)

◀ Choose the position of the shower and bathtub drains and a door type: pivot or sliding.

Alcove

Alcove right

## Angular configuration

A perpendicular installation of a shower and a bathtub where the shower is placed against the bathtub so as to form an “L” layout. It’s a great way to create a unique look in a small space.

### IDEAL FOR:

- installation in a left or right corner (2 walls)
- installation in an alcove (3 walls)

### AVAILABLE DIMENSIONS:

- 87" (L) x 60" (W)
- 89" (L) x 60" (W)
- 93" (L) x 60" (W)

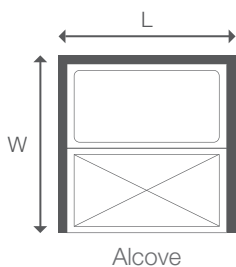

◀ Choose the position of the shower and bathtub drains.  
A sliding door has been specially designed for this combo.

Alcove enclosed

Alcove left

## Compact configuration

A perpendicular installation of a bathtub and a shower, where the shower is placed against the bathtub to create a **compact, space-saving layout**. Ideal for small bathrooms.

### YOUR SOLUTION FOR:

- maximizing space in your bathroom

### AVAILABLE DIMENSIONS:

- 77" (L) x 60" (W)
- 89" (L) x 60" (W)

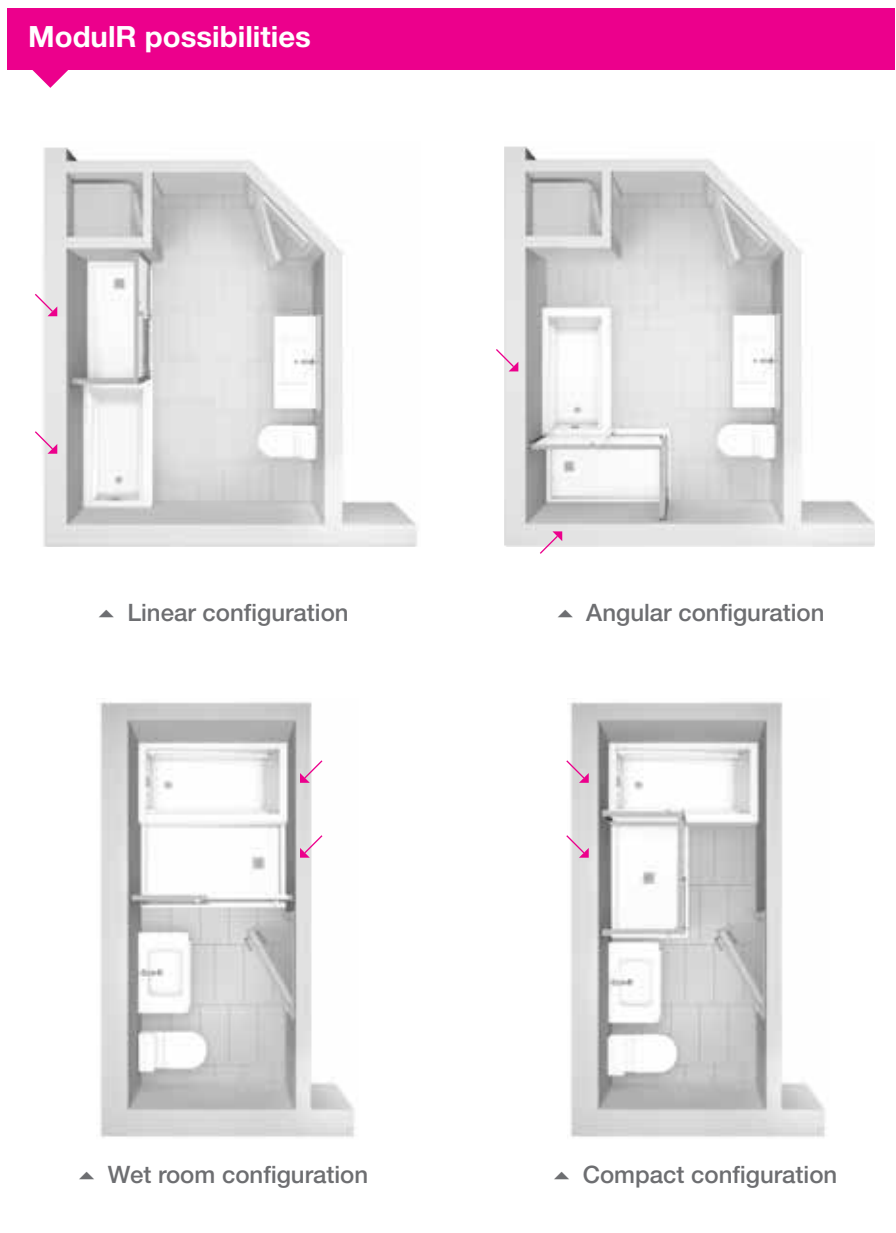

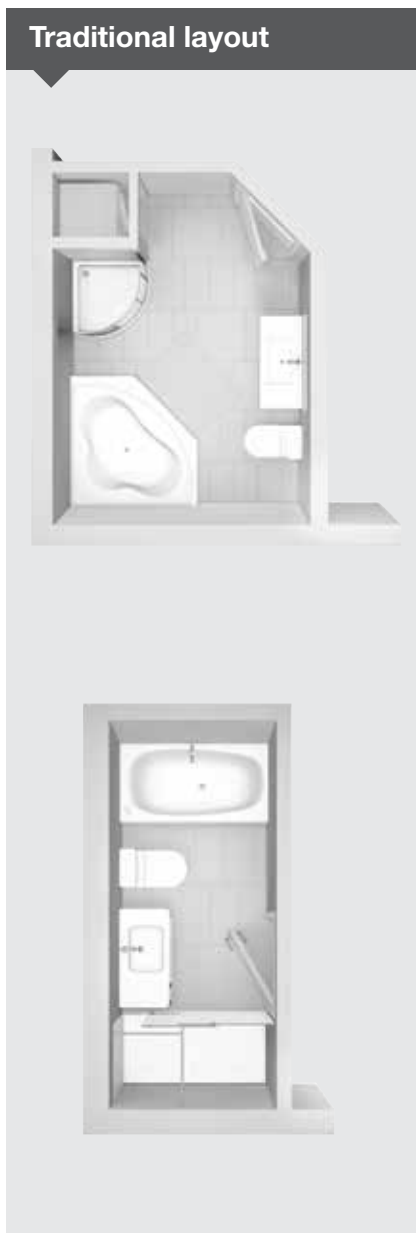

- ◀ Choose the position of the shower drain (bathtub drain has a fixed position) and a door type: pivot or sliding.

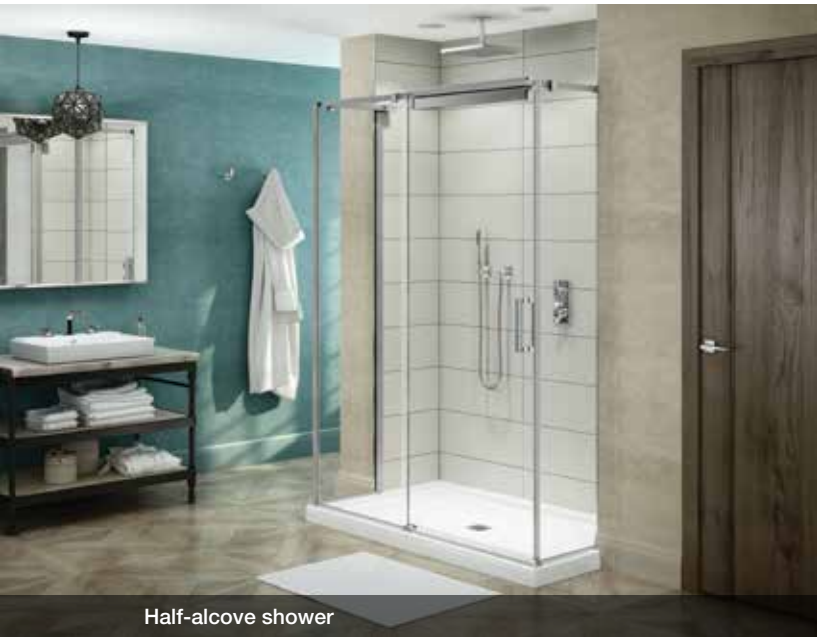

## Limited Space. Unlimited Possibilities.

The ingenious **ModulR** product line allows you to install a bathtub AND a shower in your small bathroom.

With so **many different combo configurations** to choose from, you can **maximize every square inch of your bathroom**. The **ModulR** products are perfect for remodeling projects or new urban constructions where space is often limited!

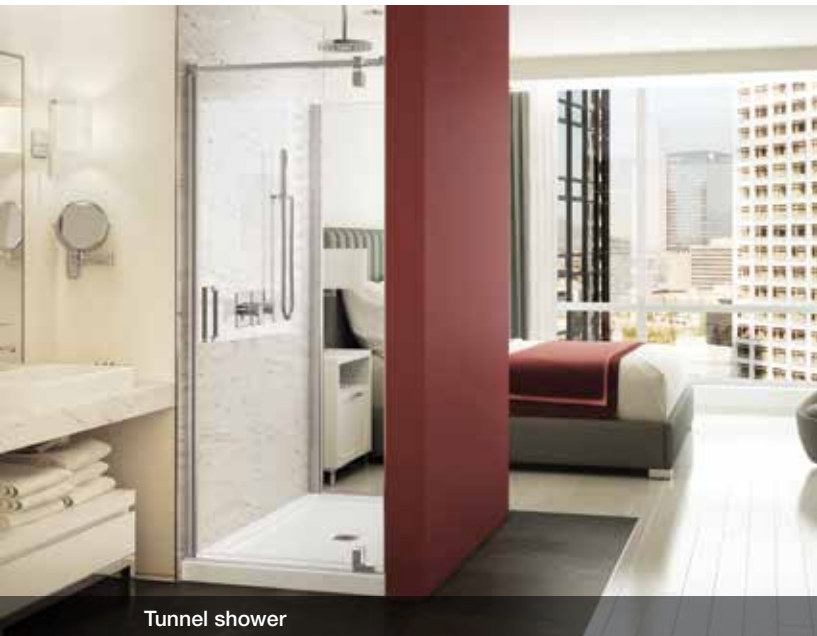

Half-alcove shower

Half-wall shower

Tunnel shower

Half-alcove deep shower

## Create a Unique Look with ModulR Showers

The **simple, sleek lines** of ModulR showers blend beautifully with any bathroom design.

**Configurable in many ways**, ModulR showers allow you to create a **unique and custom decor**. Position your ModulR shower against multiple walls or half-walls—the **possibilities are endless**.

**Get inspired** and let your imagination run wild with our online configuration tool!

# PEACE OF MIND

In addition to being **easy to maintain**, all **ModulR** products are designed to fit together for a **watertight seal** and to **simplify the installation** process.

## Bathtub

### Two-piece bathtub

- Easy transportation and handling

### Removable toe-kick

- Quick access to adjustable leveling legs and drain connection
- Facilitates tile installation

### Integrated tiling flanges on the skirt and bathtub

- Ensure watertightness

### Magnetic access panel (optional)

- Allows easy access to drain and faucet connections

## Shower base

### Shower base with specially integrated tiling flanges for composites

- Watertight connection between the shower and bathtub
- Seamless look

### 3-inch low threshold

- Allows safe and easy access

# Shower door

**Sliding door featuring the Soft Close by MAAx system**

- Prevents door slamming
