HEAT AND CHEMICAL RESISTANCE

Reinforced solid surface resists heat up to 450°; hot pots and boiling water will not harm. Swanstone withstands exposure to even the harshest of chemicals such as acetone.

DURABLE

Swanstone has the best impact resistance in the industry - up to ten times stronger! Swanstone will stand up to heavy duty abuse far beyond daily use.

ANTIMICROBIAL

Walls are non-porous, with no surface coating to scratch or wear away, forming a natural antimicrobial surface that will not breed bacteria.

EASY TO CLEAN

Easily wipe away dirt, grime, and soap scum with most household cleaners and a good rinse.
