

Swan products blend style, performance and affordability at a level unmatched in the industry. When clients require materials that are as sustainable as they are stylish, our high-performing bath and kitchen products are the ideal choice.

Swan is proud to have its kitchen and bath products installed in military bases across the United States. Military base administrators and service men and women will appreciate the virtually maintenance-free nature of Swastone solid surface, which allows them to focus on the important service they provide our country.

ANTIMICROBIAL

Walls are non-porous, with no surface coating to scratch or wear away, forming a natural antimicrobial surface that will not breed bacteria.

EASY TO CLEAN

Easily wipe away dirt, grime, and soap scum with most household cleaners and a good rinse.

DURABLE

Swastone has the best impact resistance in the industry - up to 10 times stronger! It will stand up to abuse far beyond daily use.

HEAT & CHEMICAL RESISTANT

Solid surface resists heat up to 450° and will withstand exposure to even the harshest of chemicals.

MODERN FINISHES FOR AN INVITING HOME

For many members of the military, moving frequently to various housing facilities is part of their job. By selecting kitchen and bath products from Swan's beautiful and stylish options, military men and women will feel right at home. Aside from its visual appeal, Swanstone is also highly resistant to scratching, chipping and cracking – and will stand up to years of heavy use.

HIGH DESIGN, HIGH VALUE

Government contracts often necessitate budgetconscious fixture and furnishing selection. With Swanstone, you get affordable solutions without sacrificing style or design. We guarantee our products are built to last, and will be beautiful for years after its initial installation.

DURABILITY FOR LIFE

Swanstone is built to last a lifetime. Our countertops are heat resistant up to 450° - the highest in the industry. Swanstone is also impervious to common household chemicals, so regardless of how well it's treated by the user, it will remain in its original condition. This durability is attractive to administrators and residents alike, reducing the need for regular and long-term maintenance.
