

Armorshield is a durable, factory-applied coating that protects bathtubs and shower bases from the wear and tear of construction environments. Designed for peace of mind on the jobsite, this UV-resistant barrier safeguards the product's surface from common damages, then peels away easily to reveal a flawless finish underneath.

**UNMATCHED PROTECTION**

Sprayed directly onto the finished surface, Armorshield forms a thick, durable layer that defends against nails, tools, stains, and scuff marks—preserving the product throughout the installation process.

**PEACE OF MIND**

This UV-resistant coating is applied at the factory and stays firmly in place, ensuring the porcelain finish remains brilliant and untouched in any jobsite conditions.

**EASILY REMOVABLE**

Once the job is complete, Armorshield peels away effortlessly, leaving no residue and revealing a glossy, untouched surface ready for use.

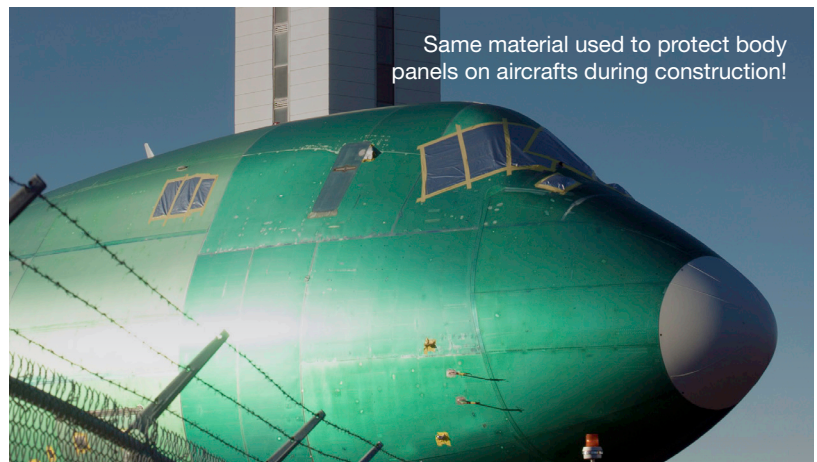

Armorshield comes with an unmatched no-charge repair guarantee on damages caused by normal jobsite wear, including:

- Nails and screws on floor
- Food and drinks
- Tobacco stains
- Scuff marks from ladders, stilts, boots and drywall/lumber scraps
- No fault warranty through installation
- Better protection through installation

HOW TO ORDER

- Available on all Bootz Shower Bases and Porcelain Bathtubs, comes standard on all Americast Shower Bases
- Available on select Americast Bathtubs
- Add an "A" at the end of the model: XXX-XXXX-XXA

Note: Large order may require extra lead time – contact Customer Service

*Extended warranty excludes damages from Acts of God such as fire, wind, flood and earthquake; or other abuse or misuse or faulty workmanship; gross negligence; impact to front or rear from hammers, drills, or other job site tools and forklifts or other powered implements, nails or screws driven through the liner and into the unit; vandalism or intentional inflicted damage. Once armorshield coating is removed, standard factory warranty is applied to the product.
