

# EVEN STRONGER

New Improved Packaging

## DURABLE PRODUCT - NOW IN EVEN MORE DURABLE PACKAGING

Improved base packaging design engineered for greater product protection at no added cost: 3x better stacking strength!

- New EPS inserts that protect the ends of the shower base
- Improved flange & apron/skirt protection
- Improved corner protection
- Increased stacking strength
- No change to freight cube

With this new design, these shower bases now have the strength to be stacked 16 units high and even stacked 36 units tall when stacked pyramid style!

**The bonded strength of steel with resistance of porcelain create a long lasting upgraded finish backed by a Lifetime Warranty\***

- Porcelain's deep rich luster can't be achieved with plastic products.
- Fade-proof and color-fast, the finish will not change colors over time.
- Abrasion and chemical resistant – porcelain will not dull or fade.
