

H06E-48

H06 Series Universal 30 MV Thermocouples

Specially designed for universal replacement.

Features

- Stainless steel element construction for long thermocouple life
- Universal adapter fittings included for easy installation of thermocouple in pilot burner
- Available in a variety of 10-packs in desired thermocouple lengths
- Standard thermocouple 1 1/32" double lead thread
- Replaces Honeywell Q34A, Johnson K19, Robertshaw 1980 and White-Rodgers H06E

Specifications

Nominal voltage range22 - 30 mV
Maximum hot junction temperature..... 1450°F
Maximum cold junction temperature 800°F

H06 Series Universal 30 MV Thermocouples

Description	Model number	Item number
18" Thermocouple	H06E-18	H06E018S1
24" Thermocouple	H06E-24	H06E024S1
30" Thermocouple	H06E-30	H06E030S1
36" Thermocouple	H06E-36	H06E036S1
48" Thermocouple	H06E-48	H06E048S1
36" Thermocouple with ECO cut-off connection	H06F-36	H06F036S1
